case of the missing crown answer key: Agents of Empire Sean Gailmard, 2024-05-02 To understand the foundations of American political institutions, it's necessary to understand the rationale for British colonial institutions that survived the empire. Political institutions in England's American colonies were neither direct imports from England, nor home-grown creations of autonomous colonists. Instead, they emerged from efforts of the English Crown to assert control over their colonies amid limited English state and military capacity. Agents of Empire explores the strategic dilemmas facing a constrained crown in its attempts to assert control. The study argues that colonial institutions emerged from the crown's management of authority delegated to agents-first companies and proprietors establishing colonies; then imperial officials governing the polities they created. The institutions remaining from these strategic dynamics form the building blocks of federalism, legislative power, separation of powers, judicial review, and other institutions that comprise the American polity today.

case of the missing crown answer key: Encyclopedia of American Short Films, 1926-1959 Graham Webb, 2020-07-27 Short subject films have a long history in American cinemas. These could be anywhere from 2 to 40 minutes long and were used as a filler in a picture show that would include a cartoon, a newsreel, possibly a serial and a short before launching into the feature film. Shorts could tackle any topic of interest: an unusual travelogue, a comedy, musical revues, sports, nature or popular vaudeville acts. With the advent of sound-on-film in the mid-to-late 1920s, makers of earlier silent short subjects began experimenting with the short films, using them as a testing ground for the use of sound in feature movies. After the Second World War, and the rising popularity of television, short subject films became far too expensive to produce and they had mostly disappeared from the screens by the late 1950s. This encyclopedia offers comprehensive listings of American short subject films from the 1920s through the 1950s.
