

fourth grade place value worksheets

Fourth Grade Place Value Worksheets: Building a Strong Number Sense Foundation

fourth grade place value worksheets are essential tools that help students grasp one of the fundamental concepts in mathematics: understanding the value of digits based on their position within a number. At this stage, children are expanding their knowledge to include larger numbers, decimals, and more complex place value relationships. These worksheets provide an engaging and structured way for students to practice and reinforce these skills, making abstract concepts more tangible and easier to comprehend.

Why Place Value Matters in Fourth Grade Math

Place value is the backbone of many math skills. It helps students understand how numbers are built, how to perform operations efficiently, and how to estimate and compare quantities. In fourth grade, students typically move beyond simple two- or three-digit numbers and start working with numbers up to 1,000,000, as well as decimals to the thousandths place. This expanded scope makes place value worksheets even more crucial, as they guide learners through progressively challenging material.

Mastering place value at this level impacts a student's ability to:

- Understand the value of each digit in large numbers
- Read and write numbers in standard, expanded, and word forms
- Compare and order numbers accurately
- Add, subtract, multiply, and divide multi-digit numbers confidently
- Grasp decimal concepts and their relation to fractions

What Makes Fourth Grade Place Value Worksheets Effective?

Not all worksheets are created equal. The best fourth grade place value worksheets are designed with clear objectives and provide a variety of question types that cater to different learning styles. Here are some qualities that make these worksheets stand out:

1. Variety of Formats and Question Types

To keep students engaged, worksheets should include multiple ways of exploring place value, such as:

- Identifying the place and value of digits in numbers
- Writing numbers in expanded form
- Comparing numbers using place value concepts
- Rounding numbers based on place value rules
- Working with decimals and understanding place value beyond the decimal point

Mixing multiple-choice questions, fill-in-the-blanks, matching exercises, and word problems makes learning more dynamic and less monotonous.

2. Gradual Increase in Difficulty

Effective place value worksheets start with familiar concepts and gradually introduce more complex ideas. This scaffolding approach helps students build confidence before tackling challenging problems like decimals or numbers in the millions. For example, a worksheet might begin with identifying the value of the digit 7 in 7,482, then progress to rounding 74,825 to the nearest thousand, and eventually ask students to write 0.374 in expanded decimal form.

3. Visual Aids and Number Models

Visual elements such as place value charts, base-ten blocks, and number lines can greatly aid comprehension. Worksheets that integrate these visuals support students who benefit from seeing abstract concepts represented concretely. For example, illustrating how a digit's place changes its value or showing how decimals fit into the place value chart can clarify tricky concepts.

Integrating Fourth Grade Place Value Worksheets into Learning

Making Practice Meaningful

Simply handing out worksheets isn't enough. Teachers and parents can enhance learning by incorporating these materials thoughtfully:

- ****Use as a warm-up or review:**** Start lessons with a few place value problems to activate prior knowledge.
- ****Pair with hands-on activities:**** Combine worksheets with manipulatives like base-ten blocks or place value disks to reinforce concepts.
- ****Encourage verbal explanations:**** Have students explain their reasoning aloud after completing worksheet problems to deepen understanding.
- ****Assign regular, short practice sessions:**** Frequent practice helps cement skills without overwhelming the student.

Tailoring Worksheets to Individual Needs

Each student learns at their own pace. Fourth grade place value worksheets come in various levels of difficulty, allowing educators and parents to select or customize worksheets based on a child's current mastery. For instance, a student struggling with decimals might benefit from worksheets focusing solely on decimal place value before moving on to mixed number problems.

Exploring Key Topics Covered in Fourth Grade Place Value Worksheets

Understanding Large Numbers

Students learn to read, write, and interpret numbers up to the millions. Worksheets might ask them to identify the value of the digit 5 in 5,243,789 or rewrite numbers in expanded form, such as $3,000,000 + 400,000 + 20,000 + 6,000 + 500 + 30 + 2$.

Decimals and Place Value Beyond the Decimal Point

This is often a challenging area for many students. Place value worksheets help by breaking down decimals into tenths, hundredths, and thousandths, showing how each position affects the number's value. For example, students might convert 0.406 into expanded form: $4/10 + 0/100 + 6/1000$.

Rounding Numbers Using Place Value

Rounding is a practical skill that relies heavily on understanding place value. Worksheets encourage students to round numbers to the nearest ten, hundred, or thousand by identifying the digit in the rounding place and deciding whether to round up or down.

Comparing and Ordering Numbers

Fourth graders learn to compare numbers using place value strategies rather than just memorizing rules. Worksheets may ask which of two numbers is greater or to arrange a group of numbers from smallest to largest, fostering number sense.

Tips for Parents and Teachers Using Fourth Grade Place Value Worksheets

- **Start with what the student knows:** Begin with simpler worksheets to build confidence before introducing tougher problems.
- **Incorporate real-world examples:** Relate place value to everyday situations like money, measurements, or population numbers to make learning relevant.
- **Provide instant feedback:** Correct mistakes promptly and explain why an answer is right or wrong to promote understanding.
- **Use technology wisely:** Online interactive place value worksheets can add an engaging element with instant scoring and hints.
- **Encourage consistent practice:** Short, daily sessions are more effective than infrequent, lengthy ones.

Finding Quality Fourth Grade Place Value Worksheets

There are many resources available online, from free printable worksheets to interactive platforms. When selecting materials, consider:

- Alignment with your curriculum or standards
- Level of difficulty appropriate for your child or class
- Inclusion of answer keys for easy correction
- Variety in question types and formats

Websites from educational organizations, teacher blogs, and online marketplaces often offer high-quality worksheets that can be tailored to your specific needs.

With consistent practice using thoughtfully crafted fourth grade place value worksheets, students gain a solid foundation in number concepts that will support their success in math for years to come. These tools not only make learning fun and interactive but also cultivate a deep understanding of how numbers work, which is essential for more advanced math topics down the road.

Frequently Asked Questions

What topics are typically covered in fourth grade place value worksheets?

Fourth grade place value worksheets typically cover topics such as understanding the value of digits in multi-digit numbers, reading and writing numbers in standard, expanded, and word forms, comparing and ordering numbers, rounding numbers, and working with decimals to the thousandths place.

How can fourth grade place value worksheets help improve math skills?

These worksheets help students strengthen their understanding of the base-ten number system, improve number sense, and develop skills in reading, writing, and comparing large numbers, which are essential for more advanced math concepts like addition, subtraction, multiplication, division, and decimals.

Are there printable fourth grade place value worksheets available for free?

Yes, many educational websites offer free printable fourth grade place value worksheets that parents and teachers can use to supplement classroom learning or provide extra practice at home.

What are some effective strategies for using place value worksheets in the classroom?

Effective strategies include using the worksheets to reinforce lessons,

incorporating interactive activities such as games or manipulatives alongside the worksheets, differentiating worksheets based on student ability, and providing immediate feedback to help students correct mistakes and deepen their understanding.

Can fourth grade place value worksheets include decimal place values?

Yes, by fourth grade, students are often introduced to decimal place values such as tenths, hundredths, and thousandths, so many place value worksheets include exercises involving decimals to help students grasp these concepts.

Additional Resources

Fourth Grade Place Value Worksheets: Enhancing Numerical Understanding in Elementary Education

fourth grade place value worksheets serve as essential tools in reinforcing a fundamental mathematical concept for students transitioning into more advanced arithmetic. Place value—the understanding that the position of a digit in a number determines its actual value—is a cornerstone of number sense and numeracy skills. As fourth graders encounter increasingly complex numbers and operations, the effective use of targeted worksheets can significantly improve their grasp of this concept, laying the groundwork for future success in mathematics.

Understanding the Role of Place Value in Fourth Grade Mathematics

By the fourth grade, students are expected to work comfortably with multi-digit whole numbers, decimals, and to some extent, fractions. Place value comprehension extends beyond simple digit identification: it involves interpreting numbers in different contexts, comparing values, and performing operations such as addition, subtraction, multiplication, and division with confidence. Fourth grade place value worksheets are designed to address these needs by offering structured practice that aligns with curriculum standards and developmental benchmarks.

Core Features of Effective Fourth Grade Place Value Worksheets

The quality and design of place value worksheets can vary greatly, impacting their educational effectiveness. Key features to look for include:

- **Progressive Difficulty:** Worksheets should start with basic place value identification and gradually introduce larger numbers, decimals, and word problems.
- **Variety of Formats:** Incorporating multiple question types such as fill-in-the-blanks, matching, and number decomposition helps engage different

learning styles.

- **Visual Aids:** Charts, place value blocks, and grids support visual learners by illustrating numerical concepts concretely.
- **Integration of Real-World Contexts:** Applying place value to practical scenarios enhances relevance and comprehension.

These components ensure that worksheets not only reinforce rote memorization but also encourage critical thinking and application.

Comparative Analysis of Fourth Grade Place Value Resources

In the digital age, educators have access to a broad spectrum of place value worksheets, ranging from printable PDFs to interactive online platforms. Printed worksheets remain popular for their ease of distribution and offline use. Notable providers such as education.com, k5learning, and math-drills.com offer extensive libraries that cover standard place value topics.

Conversely, interactive worksheets hosted on platforms like Khan Academy or IXL provide immediate feedback and adaptive difficulty, which can personalize the learning experience. However, some studies suggest that while digital tools increase engagement, they may lack the tactile reinforcement provided by paper-based exercises, which is crucial for kinesthetic learners.

Pros and Cons of Worksheet Formats

1. Printable Worksheets:

- Pros: Accessible without internet, easy to customize, suitable for classroom and homework.
- Cons: Lack of interactivity, limited instant feedback, potential for disengagement.

2. Digital Worksheets:

- Pros: Interactive, adaptive learning paths, instant correction and hints.
- Cons: Requires device access, potential distractions, may not suit all learning preferences.

Educators often find a blended approach effective, combining both formats to leverage their respective strengths.

Targeted Practice Areas in Fourth Grade Place Value Worksheets

Effective worksheets cover a broad range of place value concepts relevant to fourth-grade curricula. These include:

Multi-Digit Number Decomposition and Composition

Students practice breaking down numbers into thousands, hundreds, tens, and ones, and conversely, composing numbers from given place values. This skill is critical for understanding the base-ten number system and for performing arithmetic operations efficiently.

Decimal Place Values

Introducing tenths, hundredths, and thousandths, worksheets help students transition from whole numbers to decimals. Exercises often involve reading, writing, and comparing decimal numbers to foster precision in numerical representation.

Comparing and Ordering Numbers

Through exercises that ask students to identify which number is greater or smaller or to arrange numbers in ascending or descending order, learners refine their understanding of numerical magnitude and place value significance.

Rounding and Estimation

Worksheets that incorporate rounding to the nearest ten, hundred, or thousand encourage number sense and mental math skills, which are vital for problem-solving in both academic and real-life contexts.

Integrating Place Value Worksheets into Classroom Instruction

When used thoughtfully, fourth grade place value worksheets can complement instruction by providing structured practice and diagnostic insights. Teachers often use these worksheets to:

- Assess individual student understanding and identify areas needing reinforcement.
- Facilitate differentiated instruction by assigning worksheets tailored to varying skill levels.

- Support homework and remote learning with accessible practice materials.
- Encourage collaborative learning through group worksheet activities that promote discussion and peer teaching.

Moreover, incorporating periodic review sessions using place value worksheets helps solidify knowledge retention and boosts confidence.

Challenges and Considerations

While these worksheets are valuable, educators should be cautious about over-reliance on repetitive drill exercises, which may lead to disengagement. Balancing worksheet use with interactive lessons, manipulatives, and real-world problem-solving ensures a holistic approach that caters to diverse learning preferences.

Additionally, cultural and linguistic diversity in classrooms necessitates worksheets that are clear, inclusive, and adaptable to different contexts. Providing explanations alongside exercises can aid comprehension for English Language Learners and students with varying backgrounds.

Conclusion: The Continuing Importance of Place Value Mastery

Mastery of place value is indispensable for fourth graders as they navigate increasingly complex numerical tasks. Fourth grade place value worksheets remain a practical and versatile resource in this educational journey. By selecting well-designed worksheets that offer varied and engaging practice, educators can enhance students' numerical fluency and prepare them for higher-level math concepts. As educational methods evolve, integrating traditional worksheets with interactive technologies promises to further enrich the learning experience, ensuring that place value education remains both rigorous and accessible.

fourth grade place value worksheets: Jump Into Math, Grade 4 Leland Graham, Barry Doran, 2008-08-28 Looking for strategies to help struggling students with computation? Jump Into Math for grade 4 offers step-by-step instructions for teachers and meaningful practice for students. This 208-page book includes diagnostic tests that identify students' instructional needs, multimethod teaching strategies that reach every student, and reproducible practice pages. This resource supports NCTM standards and aligns with state, national, and Canadian provincial standards.

fourth grade place value worksheets: Place Value, Grades K - 6 Graham, Duff, 2010-06-11 Make math matter to students in grades K-6 using Place Value! This 64-page book helps students, especially struggling learners, understand the base-ten system. This book contains reproducible base-ten models, practice pages, assessments, games, and Web sites. It covers topics such as naming and writing numerals, counting, using expanded notation, ordering and comparing numbers,

and applying knowledge about numbers. The book supports NCTM standards.

fourth grade place value worksheets: *Place Value, Grades K - 5* Graham, Duff, 2010-06-11 Make math matter to students in grades K-5 using Place Value! This 64-page book helps students, especially struggling learners, understand the base-ten system. This book contains reproducible base-ten models, practice pages, assessments, games, and Web sites. It covers topics such as naming and writing numerals, counting, using expanded notation, ordering and comparing numbers, and applying knowledge about numbers. The book supports NCTM standards.

fourth grade place value worksheets: *Place Value, Grades K - 3* Graham, Duff, 2010-06-11 Make math matter to students in grades K-3 using Place Value! This 64-page book helps students, especially struggling learners, understand the base-ten system. This book contains reproducible base-ten models, practice pages, assessments, games, and Web sites. It covers topics such as naming and writing numerals, counting, using expanded notation, ordering and comparing numbers, and applying knowledge about numbers. The book supports NCTM standards.

fourth grade place value worksheets: *Mathematics Workbook 0701* Chandan Sengupta, There are mathematical problems which require knowledge of more than one thematic areas. Such problems are incorporated in the collections of Composite worksheets. In this workbook such composite worksheets are more in number. For all students it would be better if they acquire such skills in advance before moving through the composite worksheets. Other books in this series are as follows: 1. Handbook of Mathematics 2. Creative Mathematics Book 7 Part 1 3. Olympiad and Talent 4. Aspirations of Mathematics 5. My Own Book of School Mathematics. All these books are suitable for students of School stage having age group 11 to 13 years. This Workbook is meant primarily for students of Middle School. Other aspirants having affinity of revising their skills and competence of that level can take it as their source book. This book has been published with all reasonable efforts taken to make the material error-free after the consent of the author. No part of this book shall be used, reproduced in any manner whatsoever without written permission from the author, except in the case of brief quotations embodied in critical articles and reviews.

fourth grade place value worksheets: *Math & Science for Young Children* Rosalind Charlesworth, Karen Lind, 2007 Math and Science for Young Children, 5e is a unique reference that focuses on the integration of math and science with the other important areas of child development during the crucial birth through eight age range. It also carefully addresses the ever changing and significant national standards of the following organizations: The National Association for the Education of Young Children (NAEYC), National Council of Teachers of Math (NCTM), National Science Teachers Association (NSTA), American Association for the Advancement of Science (AAAS), and the National Research Council (NRC). A valuable resource for the student learner, working professional, as well as the involved parent, Math and Science for Young Children, 5e is the most current volume of information of its' kind available on the market today.

fourth grade place value worksheets: *Mathematics and Teaching* Michele D. Crockett, 2008-06 Mathematics and Teaching uses case studies to explore complex and pervasive issues that arise in teaching. In this volume, school mathematics is the context in which to consider race, equity, political contexts and the broader social and cultural circumstances in which schooling occurs. This book does not provide immediate or definitive resolutions. Rather, its goal is to provoke and facilitate thoughtful discussion about critical issues for professional decision-making in mathematics teaching. This is the 7th volume in Reflective Teaching and the Social Conditions of Schooling: A Series for Prospective and Practicing Teachers, edited by Daniel P. Liston and Kenneth M. Zeichner. It follows the same format as previous volumes in the series. Part I includes four case studies of classroom experiences: Race and Teacher Expectations; Mathematics for All?; Culture and School Mathematics; and Politics and School Mathematics. Each case is followed by a space for readers' own reactions and reflections, school stakeholders' reactions, and a summary with additional questions for further discussion. Part II presents three public arguments representing different views about the issues that arise in mathematics teaching: conservative, liberal and radical multiculturalist. Part III offers the authors' reflections on the centrality of culture in teaching

mathematics, resources and exercises for further reflection, and a bibliography for further reading. Mathematics and Teaching is pertinent for all prospective and practicing teachers at any stage in their teaching careers. It is appropriate for any undergraduate and graduate course addressing mathematics teaching issues.

fourth grade place value worksheets: Woodcock-Johnson IV Nancy Mather, Lynne E. Jaffe, 2016-01-26 Includes online access to new, customizable WJ IV score tables, graphs, and forms for clinicians Woodcock-Johnson IV: Reports, Recommendations, and Strategies offers psychologists, clinicians, and educators an essential resource for preparing and writing psychological and educational reports after administering the Woodcock-Johnson IV. Written by Drs. Nancy Mather and Lynne E. Jaffe, this text enhances comprehension and use of this instrument and its many interpretive features. This book offers helpful information for understanding and using the WJ IV scores, provides tips to facilitate interpretation of test results, and includes sample diagnostic reports of students with various educational needs from kindergarten to the postsecondary level. The book also provides a wide variety of recommendations for cognitive abilities; oral language; and the achievement areas of reading, written language, and mathematics. It also provides guidelines for evaluators and recommendations focused on special populations, such as sensory impairments, autism, English Language Learners, and gifted and twice exceptional students, as well as recommendations for the use of assistive technology. The final section provides descriptions of the academic and behavioral strategies mentioned in the reports and recommendations. The unique access code included with each book allows access to downloadable, easy-to-customize score tables, graphs, and forms. This essential guide Facilitates the use and interpretation of the WJ IV Tests of Cognitive Abilities, Tests of Oral Language, and Tests of Achievement Explains scores and various interpretive features Offers a variety of types of diagnostic reports Provides a wide variety of educational recommendations and evidence-based strategies

fourth grade place value worksheets: The Arithmetic Teacher , 1990

fourth grade place value worksheets: *Genius Kids Worksheets (Bundle) for Class 2 (Grade-2)* - *Set of 6 Workbooks (English, Mathematics and Science)* flipClass, 2017-08-15 Genius Kids Worksheets for Class 2 is a set of 6 international standard workbooks created by a team of experienced academics, world class researchers and expert worksheet designers at flipClass. The worksheets are a treasure trove of information with over 1200 curriculum-based activities, exercises and games in English, Mathematics and Science for 2nd Grade. It covers major portions of CBSE, ICSE and all state boards for 2nd Grade or Class 2. The workbook's lively layout and easy to follow explanation makes learning fun and interactive. The worksheets help parents and teachers to explain key concepts with absolute ease. Mathematics (2 workbooks): Shapes & Patterns, Numbers up to 999, Addition, Subtraction, Time, Multiplication, Division, Money, Measurement, Data Handling, Part of a Whole. English (2 workbooks): Telling Sentences, Exclamations & Commands, Types of Sentences, Verbs, Past-Tense Verbs, Pronouns, Adjectives, Nouns, Common Nouns, Subject-Verb Agreement, Unscrambled Words, Prepositions, Adverbs, Conjunctions, Framing Sentences, Rhymes, Compositions, Commas. Science (2 workbooks): Me & My Family, My School, My Neighbourhood, Our Basic Needs, Our Body, Healthy Habits, Growth Stages, Animals, Plants, Earth-Water-Air, Environment, Tools We Use, Communication, Transport, Festivals, People & Work

fourth grade place value worksheets: *A Guide to Mathematics Coaching* Ted H. Hull, Don S. Balka, Ruth Harbin Miles, 2009-07-01 The authors provide a commonsense approach for those who work directly with classroom teachers to support and improve teaching and learning. Easily read, this book lays out a simple plan for success as a mathematics coach. —Emily S. Rash, Mathematics Specialist Monroe City School District, LA Discover how effective coaching relationships add up to improved mathematics teaching and learning! Math coaches play a vital role in strengthening math instruction and learning in schools. However, without a collegial relationship with the teachers they are trying to help, it is difficult to foster productive collaborations that lead to better teaching practice and increased student achievement. This resource helps coaches confidently clarify, define, and fulfill their role as influential mathematics leaders. Based on principles established by NCTM

and NCSM, this volume features a three-part process for engaging teachers in building high-quality, equitable mathematics programs. The chapters help coaches effectively: Collaborate with teachers to align and implement curriculum that positively impacts student learning and achievement Build trust and rapport with hesitant or resistant teachers Develop collegial partnerships for planning, analyzing, and reflecting on instruction Support and sustain individual and institutional change Filled with numerous vignettes to illustrate coaching practices and strategies to move teachers toward more effective instructional models, *A Guide to Mathematics Coaching* is an essential companion for transforming mathematics classrooms.

fourth grade place value worksheets: NEET Foundation Workbook 408 Chandan Sengupta, This book is designed to provide additional practice problems based on the National Curriculum duly prescribed by the boards concerned. After practicing these worksheets and assignments the fellow students of that particular curriculum will become competent enough in dealing specified tasks of particular types. National Testing Agency of India Government has prescribed some content areas for the Pre Medical Examinations. It is recommended that students should have adequate understanding of respective content areas. They also accumulate the minimum requirements a student should have before taking part in Olympiads. It will also accelerate off the school mathematical practices alongside the observations of parents and other peer members. It will also give an adequate support to different tutorials meant for ensuring individual progress. First Publication : June 2021 Hard Copies: 5,000 Published by: Chandan Sengupta, Arabinda Nagar, Bankura - 722101 Wb, India .

fourth grade place value worksheets: Guiding Children's Learning of Mathematics Leonard M. Kennedy, Steven Tipps, 2000 This text is a thorough and practical guide to teaching pre-school through 6th grade level mathematics for the pre-service and in-service elementary school teacher. Kennedy and Tipps have perfected a combination math methods/resource book that is consistent with the 2000 National Council of Teachers of Mathematics (NCTM) Standards.

fourth grade place value worksheets: Keys to Math Success, Grades 2 - 3 Graham, Duff, 2010-06-11 Make math matter to students in grades 2-3 using Keys to Math Success! This 96-page book includes student-friendly activity pages and posttests in standardized test format. It provides practice for all students but is geared toward struggling learners. This book is excellent for independent work, classroom work, and homework assignments. It supports NCTM standards.

fourth grade place value worksheets: Progressive Mathematics Part V Chandan Sengupta, There are mathematical problems which require knowledge of more than one thematic areas. Such problems are incorporated in the collections of Composite worksheets. In this workbook such composite worksheets are more in number. For all students it would be better if they acquire such skills in advance before moving through the composite worksheets. Other books in this series are as follows: 1. Handbook of Mathematics 2. Creative Mathematics Book 7 Part 1 3. Olympiad and Talent 4. Aspirations of Mathematics 5. My Own Book of School Mathematics. All these books are suitable for students of School stage having age group 11 to 13 years. This Workbook is meant primarily for students of Middle School. Other aspirants having affinity of revising their skills and competence of that level can take it as their source book. This book has been published with all reasonable efforts taken to make the material error-free after the consent of the author. No part of this book shall be used, reproduced in any manner whatsoever without written permission from the author, except in the case of brief quotations embodied in critical articles and reviews.

fourth grade place value worksheets: Educational Resources for Microcomputers , 1986

fourth grade place value worksheets: Mental Mathematics Grade III Book 2 Chandan Sengupta, This book is designed to provide additional practice problems based on the National Curriculum duly prescribed by the boards concerned. After practicing these worksheets and assignments the fellow students of that particular curriculum will become competent enough in dealing specified tasks of particular types. They also accumulate the minimum requirements a student should have before taking part in Olympiads. It will also accelerate off the school mathematical practices alongside the observations of parents and other peer members. It will also

give an adequate support to different tutorials meant for ensuring individual progress. Activity Book of any type should have adequate space for interaction and hands on practice. It should be interactive in terms of the involvement of students and also in terms of the interpretation of teachers or instructors. In that way the effort of bringing this workbook in its live form will make it more result oriented. First Publication : March 2022 Revised Publication: January 2024 Hard Copies: 5,000 Published by: Chandan Sengupta, Arabinda Nagar, Bankura - 722101 Wb, India All Rights reserved by the Author.

fourth grade place value worksheets: NAEP ... Reading Report Card for the Nation and the States , 1996

fourth grade place value worksheets: Keys to Math Success, Grades K - 1 Graham, Duff, 2010-06-11 Make math matter to students in grades K-1 using Keys to Math Success! This 96-page book includes student-friendly activity pages and posttests in standardized test format. It provides practice for all students but is geared toward struggling learners. This book is excellent for independent work, classroom work, and homework assignments. It supports NCTM standards.

fourth grade place value worksheets: Direct Instruction Mathematics Jerry Silbert, Douglas Carnine, Marcy Stein, 1990 An exciting edition of this practical math methods text that provides future teachers with practical procedures for increasing student success in math. Emphasizing specific, classroom-tested strategies, these authors provide techniques for teaching major math and needed prerequisite skills...as well as extensive background in diagnosing and correcting error patterns. In addition, they offer practical guidelines for curriculum evaluation and modification, recommendations for practice and review drills, and specific information on progress-monitoring.
