yu hua china in ten words: [Antipodean China](#) Nicholas Jose, Benjamin Madden, 2021-02-01 *Antipodean China* is a collection of essays drawn from a series of encounters between Australian and Chinese writers, which took place in China and Australia over a ten-year period from 2011. The encounters could be defensive, especially given the need to depend on translators, but as the writers spoke about the places important to them, their influences and their work, resemblances emerged, and the different perspectives contributed to a sense of common understanding, about literature and about the role of the writer in society. In some cases the communication is even more direct, as when the Tibetan author A Lai speaks knowingly about Alexis Wright's novel *Carpentaria*, and the two winners of the Nobel Prize for Literature, Mo Yan and J.M. Coetzee, discuss what the Nobel meant for each of them. The collection also includes writing by some of the best Chinese and Australian writers: novelists Brian Castro, Gail Jones, Julia Leigh, Yu Hua, Sheng Keyi and Liu Zhenyun, poets Kate Fagan, Ouyang Yu, Xi Chuan and Zheng Xiaoqiong, and translators Eric Abrahamsen, Li Yao and John Minford. In the current situation of hostility and suspicion between the two countries, this collection presents what may be seen, in retrospect, as an idyllic moment of communication and trust.

yu hua china in ten words: Drugs for the mind Sofie Sun, 2015-08-14 In the eyes of the Chinese authorities books are too often *Drugs for the Mind*. Sofie Sun (1986) chose this remarkable description as the title of her investigation into censorship and literature in the People's Republic of China. She interviewed representatives of three groups of authors who each have their own view about censorship: writers with no official status living and working in the People's Republic of China, writers in exile, and those who are members of the Chinese Writers Association. By telling the stories about these writers, she sketches a portrayal of censorship and self-censorship in the People's Republic of China. Sofie Sun was born in the People's Republic of China and came to the Netherlands in 2007, where she has lived ever since. She holds a BA and an MA in Dutch literature from Leiden University. She has translated a range of Dutch titles into Chinese. She will soon complete and defend her doctoral dissertation 'Dutch literature in Chinese translation, 1961-2010'. yu hua china in ten words: The China Order Fei-Ling Wang, 2017-08-07 What does the rise of China represent, and how should the international community respond? With a holistic rereading of Chinese *longue durée* history, Fei-Ling Wang provides a simple but powerful framework for understanding the nature of persistent and rising Chinese power and its implications for the current global order. He argues that the Chinese ideation and tradition of political governance and world order—the China Order—is based on an imperial state of Confucian-Legalism as historically exemplified by the Qin-Han polity. Claiming a Mandate of Heaven to unify and govern the whole known world or *tianxia* (all under heaven), the China Order dominated Eastern Eurasia as a world empire for more than two millennia, until the late nineteenth century. Since 1949, the People's Republic of China has been a reincarnated Qin-Han polity without the traditional China Order, finding itself stuck in the endless struggle against the current world order and the ever-changing Chinese society for its regime survival and security. Wang also offers new discoveries and assessments about the true golden eras of Chinese civilization, explains the great East-West divergence between China and Europe, and analyzes the China Dream that drives much of current Chinese foreign policy.

yu hua china in ten words: To Live Yu Hua, 2007-12-18 Originally banned in China but later named one of that nation's most influential books, a searing novel that portrays one man's transformation from the spoiled son of a landlord to a kindhearted peasant. "A work of astounding emotional power." —Dai Sijie, author of *Balzac and the Little Chinese Seamstress* From the author of *Brothers and China in Ten Words*: this celebrated contemporary classic of Chinese literature was also adapted for film by Zhang Yimou. After squandering his family's fortune in gambling dens and brothels, the young, deeply penitent Fugui settles down to do the honest work of a farmer. Forced by the Nationalist Army to leave behind his family, he witnesses the horrors and privations of the Civil War, only to return years later to face a string of hardships brought on by the ravages of the Cultural Revolution. Left with an ox as the companion of his final years, Fugui stands as a model of gritty authenticity, buoyed by his appreciation for life in this narrative of humbling power.

yu hua china in ten words: China's Galaxy Empire John Keane, Baogang He, 2024-04-23 In *China's Galaxy Empire*, John Keane and Baogang He target a development of enormous significance: China's return, after two centuries of decline and subjugation, to a position of prominence in world affairs. The daring thesis is that China is a newly rising empire of a kind never before witnessed: a galaxy empire. The first to be born of the digital communications era, this young empire is economically and politically powerful, and heavily armed. Its gravitational, push-pull effects are impacting every continent—and even outer space, where China is competing with the United States, India, and Europe to become the leading power. The galaxy empire interpretation rejects clichéd

misdescriptions of China as a big power or monolithic autocracy, and it explains why China defies older definitions of land, sea, and air-based empires. The book charts the developments that have made its rising empire so novel, including the launch of the Belt and Road Initiative, the rapid rise of a global Chinese middle class, and internal colonialism in Tibet and Xinjiang. The book notes the protean, shapeshifting qualities of this young empire. It therefore warns against the political and military perils of simple-minded, friend-versus-enemy thinking and Big China, Bad China politics. But it also proffers a forewarning to China's rulers: while every rising empire aims to shift the balance of power in its favour, no empire lasts forever, and some are stillborn, because they indulge illusions of greatness and reckless power adventures.

yu hua china in ten words: Values and Indigenous Psychology in the Age of the Machine and Market Alvin Dueck, Louise Sundararajan, 2024-08-07 This interdisciplinary edited collection addresses issues at the intersection of indigenous psychology, market ideology, values, and technology. The aims of this book arise from the recognition that whereas the unfolding of the agricultural revolution over thousands of years allowed for the gradual co-evolution of values and technology to blossom, the post-industrial technological revolution is so accelerated that there has been little time for the co-evolution of values. To address this, the chapters collected here seek to initiate a conversation that will provide the conceptual space for the evolution of values that can keep pace with contemporary developments in the machine and the market. In this conversation, they argue, indigenous psychologies will necessarily play a central role for two reasons: firstly, as alternative systems of thought they enable a productive interrogation of the rationality of machine and the market; and second, examples of the impact of technology and the market on traditional societies hold lessons for potential future impacts on the society as a whole. This timely work offers fresh insights that will appeal to students and scholars of psychology, cultural and religious studies, anthropology, business and economics, and science and technology studies.

yu hua china in ten words: *Reproductive Realities in Modern China* Sarah Mellors Rodriguez, 2023-01-19 Lasting from 1979 to 2015, China's One Child Policy is often remembered as one of the most ambitious social engineering projects to date and considered emblematic of global efforts to regulate population growth during the twentieth century. Drawing on a rich combination of archival research and oral history, Sarah Mellors Rodriguez analyses how ordinary people, particularly women, navigated China's shifting fertility policies before and during the One Child Policy era. She examines the implementation and reception of these policies and reveals that they were often contradictory and unevenly enforced, as men and women challenged, reworked, and co-opted state policies to suit their own needs. By situating the One Child Policy within the longer history of birth control and abortion in China, *Reproductive Realities in Modern China* exposes important historical continuities, such as the enduring reliance on abortion as contraception and the precariousness of state control over reproduction.

yu hua china in ten words: *The Minjian Avant-Garde* Chang Tan, 2024-02-15 The Minjian Avant-Garde studies how experimental artists in China mixed with, brought changes to, and let themselves be transformed by minjian, the volatile and diverse public of the post-Mao era. Departing from the usual emphasis on art institutions, global markets, or artists' communities, Chang Tan proposes a new analytical framework in the theories of socially engaged art that stresses the critical agency of participants, the affective functions of objects, and the versatility of the artists in diverse sociopolitical spheres. Drawing from hitherto untapped archival materials and interviews with the artists, Tan challenges the views of Chinese artists as either dissidents or conformists to the regime

and sees them as navigators and negotiators among diverse political discourses and interests. She questions the fetishization of marginalized communities among practitioners of progressive art and politics, arguing that the members of minjian are often more complex, defiant, and savvy than the elites would assume. The Minjian Avant-Garde critically assesses the rise of populism in both art and politics and show that minjian could constitute either a democratizing or a coercive force. This book was published with generous support from the George Dewey and Mary J. Krumrine Endowment.

yu hua china in ten words: When Trees Fall, Monkeys Scatter: Rethinking Democracy In China John Keane, 2017-08-04 Predictions of the coming collapse of Chinese politics are today commonplace, however this thought-provoking book explores a radically different alternative. China, it argues, is a one-party-dominated political system whose surprising levels of public support and resilience in the face of serious economic, environmental and social problems suggest that it is more durable than most outside observers suppose. China is not an ailing 'autocracy', a case of 'crony capitalism' or a blindly repressive 'authoritarian regime'. The rulers of China are in fact experimenting with a wide range of locally-made democratic tools designed to win the trust and loyalty of their subjects. Examples probed in this book include the injection of accountability mechanisms into state bureaucracy, the toleration of independent public opinion leaders, the growing reliance of Party officials and corporate executives on public opinion polls and 'democratic style', and the calculated use by Party officials of digitally networked media as early warning devices. Written for students and teachers, researchers and general readers fascinated by the rising global power of China, *When Trees Fall, Monkeys Scatter* shows why locally-made democratic practices often favour one-party rule and why China is becoming a globally significant political laboratory: a 21st century testing ground for a new type of top-down popular government at odds with power-sharing democracy as it was known during the past generation.

yu hua china in ten words: The New Despotism John Keane, 2020-05-12 An Australian Book Review Best Book of the Year A disturbing in-depth exposé of the antidemocratic practices of despotic governments now sweeping the world. One day they'll be like us. That was once the West's complacent and self-regarding assumption about countries emerging from poverty, imperial rule, or communism. But many have hardened into something very different from liberal democracy: what the eminent political thinker John Keane describes as a new form of despotism. And one day, he warns, we may be more like them. Drawing on extensive travels, interviews, and a lifetime of thinking about democracy and its enemies, Keane shows how governments from Russia and China through Central Asia to the Middle East and Europe have mastered a formidable combination of political tools that threaten the established ideals and practices of power-sharing democracy. They mobilize the rhetoric of democracy and win public support for workable forms of government based on patronage, dark money, steady economic growth, sophisticated media controls, strangled judiciaries, dragnet surveillance, and selective violence against their opponents. Casting doubt on such fashionable terms as dictatorship, autocracy, fascism, and authoritarianism, Keane makes a case for retrieving and refurbishing the old term "despotism" to make sense of how these regimes function and endure. He shows how they cooperate regionally and globally and draw strength from each other's resources while breeding global anxieties and threatening the values and institutions of

democracy. Like Montesquieu in the eighteenth century, Keane stresses the willing complicity of comfortable citizens in all these trends. And, like Montesquieu, he worries that the practices of despotism are closer to home than we care to admit.

yu hua china in ten words: China's New Era Annie Luman Ren, Ben Hillman, 2024-06-06 According to Communist Party discourse, China's 'New Era' began when Xi Jinping was anointed Party boss in 2012. The shape of this New Era became eminently clear in 2023 when Xi commenced his third five-year term as General Secretary of the Party, a fortification of one-man authoritarian rule unprecedented in post-Mao China. Under Xi, the Party has expanded its influence over government, the economy and society. The Party-State is now more Party than State. The year 2023 saw other 'new eras' for China as well. Despite initial optimism sparked by the end of COVID-19 restrictions in late 2022, the Chinese economy in 2023 was buffeted by continuing property sector woes, record unemployment, and an unfolding local government debt crisis. Globally, China adopted a series of new and ambitious diplomatic initiatives to woo the Global South and amplify its voice on the world stage. The China Story Yearbook 2023: China's New Era provides informed perspectives on these and other important stories that will resonate for years to come.

yu hua china in ten words: Revolutionary Waves Tie Xiao, 2020-10-26 During China's transition from dynastic empire to nation-state, the crowd emerged as a salient trope. Intellectuals across the ideological spectrum have used the crowd trope to ruminate on questions of selfhood and nationhood, and to advance competing models of enlightenment and revolution. Revolutionary Waves analyzes the centrality of the crowd in the Chinese cultural and political imagination and its global resonances by delving into a wide range of fiction, philosophy, poetry, and psychological studies. Bringing together literary studies, intellectual history, critical theory, and the history of human sciences, this interdisciplinary work highlights unexplored interactions among emerging social-scientific forms of knowledge, new aesthetic modes of representation, and changing political imperatives. The work brings into relief the complexities of the modern Chinese crowd discourse, which generated subjectivities and oriented actions, enabled as well as constrained the expression of togetherness, and thus both expanded and limited the horizon of political possibilities in the emerging age of mass politics. The first in-depth examination of the aesthetics and politics of the crowd in modern Chinese literature and thought, Revolutionary Waves raises questions about the promise and peril of community as communion and reimagines collective life in China's post-socialist present.
