deloitte gps case interview: *Open Data Exposed* Bastiaan van Loenen, Glenn Vancauwenberghe, Joep Crompvoets, 2018-10-25 The main objectives of this book are to expose key aspects that have a relevance when dealing with open data viewed from different perspectives and to provide appealing examples of how open data is implemented worldwide. The concept of open data as we know it today is the result of many different initiatives, both of a legislative and non-legislative nature, and promoted by a wide range of actors. Numerous regulatory antecedents to foster the concept of open data and embed it in national and international policy agendas have been undertaken on both sides of the Atlantic, as well as at a supranational level. The book highlights a number of the efforts made to promote open data in Europe, Asia and the United States. In addition to new insights, practical guidance and multiple disciplinary perspectives on open data, the book also addresses the transformation of current developments towards open data, which may be referred to as the democratisation of data. This book will support open data practitioners as well as open data scholars in their endeavours to promote open data implementation and research. Bastiaan van Loenen is associate professor and director of the Knowledge Centre Open Data at the Faculty of Architecture and The Built Environment of Delft University of Technology in the Netherlands, as is Glenn Vancauwenberghe, who is a post-doctoral researcher, and Joep Crompvoets is a professor at the Public Governance Institute of the KU Leuven in Belgium.

deloitte gps case interview: *The Business of Race: How to Create and Sustain an Antiracist Workplace—And Why it's Actually Good for Business* Margaret H. Greenberg, Gina Greenlee, 2021-08-31 This book is not written specifically for White readers, Black readers, readers who are Latino, Asian, or other specific racial or ethnic groups. If you are a business leader, individual contributor, Human Resources or DEI (Diversity, Equity and Inclusion) professional, educator, coach, or consultant, then *The Business of Race* is for you. In the business world, incident-driven, company position statements on Black Lives Matter or Stop Asian Hate are not proxies for the heavy lifting that will penetrate and sustain a shift in the status quo. Advancing racial equity to disrupt institutional racism requires more than a company-wide memo or a tab on a corporate website.

Businesses often water down, negate or skirt this reality by touting successes from its cousin—diversity. However, you cannot advance a strategy you do not name. The general term “diversity” enables that dynamic. It’s impossible to create an antiracist workplace when we avoid speaking the words “race” and “racism.” Co-authored by two business women, one Black and one White, *The Business of Race* can help us all prepare for this transformative work. Rather than diving headfirst with well-meaning but ineffectual efforts, we must first ready our organizations. The authors outline both the inner work (raising our own individual awareness and creating new ways of thinking and being), and the outer work organizations must undertake. This includes honest and often uncomfortable discussions. And carrying out as core to operational business strategy and performance, policies and practices to reimagine a racially equitable workplace. Whether you’re a rising entrepreneur, a supervisor or manager, a leader of a large multinational company, or a frontline employee, you’ll find concrete actions in this essential guide: *Why Racial Diversity, Why Now – A Competitive Advantage Commitment, Specificity, and the Science of Small Wins* Uncomfortable Truths and Fearless Leaders Look for Talent Where Others Are Not No Secrets in Pay and Promotions – Close the Wage Gap Discover Your “E” and Measure its Impact Woven throughout *The Business of Race* are interviews with dozens of business professionals across myriad industries, fields and organizational levels. Their stories bring voice to the challenges and opportunities businesses face every day, and provide readers with the courage and tools to openly, honestly, and effectively address the deeply complex, emotional and intimidating dynamic of race and racism in the workplace.
