This timely volume reconsiders the relationships between cinema and society at a time when neoliberal policies threaten not only civic culture but also nearly every aspect of human life. Screening the Crisis brings together established authors as well as brilliant young scholars in the field of film studies to explore the ways in which new tendencies in US cinema enhance awareness of the complexity of the problems facing contemporary society. The issues addressed include economic inequality, shifts in gender roles, racial conflicts, immigration, surveillance practices, the environmental crisis, the politics of housing, and the fragility of nationhood. These questions are explored through in-depth studies and contextualized analyses of a wide variety of recent films, genres, and filmmakers. With its ample range of topics and perspectives, this collection provides an essential reference work for those who want to research how US cinema has responded to the manifold interconnected crises that characterize our current times.

**movies like the girl with the dragon tattoo: Love and the Fighting Female** Allison P. Palumbo, 2020-08-06 The fighting female archetype--a self-reliant woman of great physical prowess--has become increasingly common in action films and on television. However, the progressive female identities of these narratives cannot always resist the persistent and problematic framing of male-female relationships as a battle of the sexes or other source of antagonism. Combining cultural analysis with close readings of key popular American film and television texts since the 1980s, this study argues that certain fighting female themes question regressive conventions in male-female relationships. Those themes reveal potentially progressive ideologies regarding female agency in mass culture that reassure audiences of the desirability of empowered women while also imagining egalitarian intimacies that further empower women. Overall, the fighting female narratives addressed here afford contradictory viewing pleasures that reveal both new expectations for and remaining anxieties about the strong, independent woman ideal that emerged in American popular culture post-feminism.
