

robert anton wilson prometheus rising

****Unlocking the Mind: Exploring Robert Anton Wilson's Prometheus Rising****

robert anton wilson prometheus rising is more than just a book title; it's an invitation to explore the depths of human consciousness and the potentials hidden within our minds. For decades, this seminal work has fascinated readers interested in psychology, consciousness, and the intersection of science and spirituality. Robert Anton Wilson, renowned for his unconventional and boundary-pushing ideas, crafted **Prometheus Rising** as a guide to understanding reality through the lens of neuroscience, psychology, and quantum theory. This article delves into the core concepts of the book, why it remains influential, and how it can transform your perception of self and the world.

The Essence of Robert Anton Wilson's Prometheus Rising

At its heart, **Prometheus Rising** is a manual for personal evolution. Wilson draws heavily from Timothy Leary's eight-circuit model of consciousness, blending it with his unique philosophical insights to create a framework that challenges traditional thinking patterns. The book encourages readers to break free from societal conditioning and reprogram their brains to achieve higher states of awareness.

Whether you're a student of psychology, a seeker of esoteric knowledge, or simply curious about expanding your mental horizons, **Prometheus Rising** offers a roadmap. It's not a dry academic text but a lively, engaging journey filled with exercises designed to awaken new neural pathways. This approach helps readers actively participate in their own cognitive evolution instead of passively consuming information.

Understanding the Eight Circuits of Consciousness

One of the most intriguing aspects of **Prometheus Rising** is its exploration of the eight circuits or levels of consciousness. These circuits represent different modes of perception and reality interpretation, from basic survival instincts to cosmic awareness. Here's a brief overview:

1. ****The Bio-Survival Circuit**** – Focused on safety and survival instincts.
2. ****The Emotional-Territorial Circuit**** – Governs emotions, dominance, and social hierarchies.
3. ****The Symbolic or Semantic Circuit**** – Responsible for language, symbols, and abstract thinking.
4. ****The Domestic or Socio-Sexual Circuit**** – Manages social bonding and sexual behaviors.
5. ****The Neurosomatic Circuit**** – Consciousness of body and sensory pleasure.
6. ****The Neuroelectric or Metaprogramming Circuit**** – Awareness of thought patterns and ability to reprogram them.
7. ****The Neurogenetic Circuit**** – Connection with genetic memory and collective unconscious.
8. ****The Psychoatomic or Quantum Non-Local Circuit**** – Experiencing reality beyond space and time.

Wilson's model provides a unique lens to understand human behavior and consciousness as fluid and expandable rather than fixed.

Why Prometheus Rising Resonates in Modern Times

In today's fast-paced, information-saturated world, *Prometheus Rising* is more relevant than ever. Its emphasis on metaprogramming—rewiring our mental habits—parallels modern interests in neuroplasticity and mindfulness. Robert Anton Wilson's work predates many contemporary discussions on cognitive flexibility but aligns closely with them, making his insights surprisingly prescient.

Moreover, the book appeals to those exploring alternative spirituality, psychedelic experiences, and the nature of reality itself. Wilson himself was deeply influenced by the counterculture of the 1960s and integrated psychedelic philosophy with scientific inquiry. This synergy has helped *Prometheus Rising* maintain a cult following among psychonauts, philosophers, and intellectual explorers.

Applying Prometheus Rising in Everyday Life

One of the strengths of Robert Anton Wilson's approach is its practicality. The book includes numerous exercises designed to expand awareness and challenge ingrained belief systems. Here are some ways readers can apply the principles:

- **Reality Tunnels:** Recognize that everyone perceives the world through their own "reality tunnel," shaped by experiences and beliefs. By becoming aware of this, you can begin to question and alter your perceptions.
- **Metaprogramming Exercises:** Identify limiting thoughts and behaviors, then consciously replace them with empowering alternatives.
- **Cultivating Flexibility:** Practice shifting between different circuits of consciousness to adapt to varying situations creatively.
- **Exploring Non-Ordinary States:** Safely experiment with meditation, sensory deprivation, or other techniques to experience higher circuits.

These tools help foster a mindset open to change, adaptability, and personal growth.

Robert Anton Wilson's Legacy and Influence Through Prometheus Rising

Beyond the text itself, *Prometheus Rising* has influenced a broad spectrum of thinkers and creatives. It's credited with inspiring aspects of the modern psychedelic renaissance, transpersonal psychology, and even some strands of cognitive science. Wilson's playful writing style and willingness to question authority encourage readers not just to absorb facts but to become critical thinkers.

His interdisciplinary approach—melding science, mysticism, and humor—breaks down barriers between disciplines, inviting a holistic understanding of human potential. This has allowed *Prometheus Rising* to transcend niche audiences and impact a wide array of communities interested in expanding consciousness.

Books and Resources for Further Exploration

If you find *Prometheus Rising* intriguing, several other works and resources complement Wilson's ideas:

- **Timothy Leary's Works:** Especially on the eight-circuit model of consciousness.
- **The Illuminatus! Trilogy:** Co-written by Wilson, blending conspiracy, satire, and philosophy.
- **Neuroplasticity Research:** Understanding the brain's adaptability in contemporary science.
- **Transpersonal Psychology:** Exploring spirituality and psychology intersections.

Engaging with these materials can deepen your understanding of the frameworks Wilson introduces.

The Transformative Power of Consciousness Expansion

At its core, *Prometheus Rising* is about transformation—transforming how we see ourselves and our relationship to reality. Robert Anton Wilson challenges readers to question everything: the nature of truth, the reliability of perception, and the limits of their own minds. By doing so, he empowers individuals to become co-creators of their experience rather than passive recipients.

This exploration is not always easy. It demands courage to confront deeply held beliefs and comfort zones. Yet, the reward is a richer, more flexible, and more profound engagement with life.

Whether you approach *Prometheus Rising* as a philosophical treatise, a psychological manual, or a spiritual guide, it offers a unique invitation: to awaken the Prometheus within and rise to new heights of awareness.

In embracing this journey, readers join a lineage of thinkers who refuse to accept reality as fixed, instead choosing to explore the infinite possibilities of the human mind. Robert Anton Wilson's *Prometheus Rising* remains a beacon for those willing to take that step.

Frequently Asked Questions

What is 'Prometheus Rising' by Robert Anton Wilson about?

'Prometheus Rising' is a book by Robert Anton Wilson that explores human consciousness, psychology, and the potential for personal transformation through the lens of Timothy Leary's eight-circuit model of consciousness.

Who is Robert Anton Wilson?

Robert Anton Wilson was an American author, futurist, and philosopher known for his works on consciousness, conspiracy theories, and psychology, including books like 'Prometheus Rising' and the 'Illuminatus!' trilogy.

What are the eight circuits of consciousness in 'Prometheus Rising'?

The eight circuits are a model of the human mind proposed by Timothy Leary and expanded by Wilson, describing different levels of consciousness: the bio-survival, emotional-territorial, symbolic, domestic, neurosomatic, neuroelectric, neurogenetic, and metaprogramming circuits.

How does 'Prometheus Rising' relate to Timothy Leary's work?

The book builds upon Timothy Leary's eight-circuit model of consciousness, providing practical exercises and theories to help readers understand and expand their mental capabilities.

Is 'Prometheus Rising' considered a self-help book?

While not a traditional self-help book, 'Prometheus Rising' offers insights and exercises aimed at personal growth and expanding consciousness, making it a unique resource for self-improvement.

What kind of exercises does Robert Anton Wilson suggest in 'Prometheus Rising'?

'Prometheus Rising' includes various mental and physical exercises designed to help readers become aware of their programming, challenge their beliefs, and activate higher circuits of consciousness.

Why is 'Prometheus Rising' still relevant today?

The book remains relevant due to its pioneering approach to understanding consciousness, psychology, and personal transformation, topics that continue to interest people exploring mind expansion and alternative philosophies.

Can 'Prometheus Rising' be understood without prior knowledge of psychology or neuroscience?

Yes, Wilson writes in an accessible style, making complex ideas understandable to readers without a background in psychology or neuroscience, though some concepts may require careful reading and reflection.

Where can I buy or read 'Prometheus Rising' by Robert Anton Wilson?

'Prometheus Rising' is available for purchase through major bookstores, online retailers like Amazon, and can also be found in some libraries or as an ebook on various platforms.

Additional Resources

Robert Anton Wilson *Prometheus Rising: Exploring the Depths of Consciousness and Reality*

robert anton wilson prometheus rising stands as a seminal work in the exploration of human consciousness, psychology, and the boundaries of perception. This influential book, first published in 1983, melds psychology, neuroscience, and esoteric philosophy into a provocative framework that challenges conventional views of reality and self-awareness. Robert Anton Wilson, renowned for his eclectic approach and critical thinking, presents *Prometheus Rising* as both a guide and an experiment in cognitive flexibility, inviting readers to expand their understanding of the mind and the world around them.

As a work that straddles the line between scientific inquiry and mysticism, *Prometheus Rising* has garnered attention from psychologists, philosophers, and countercultural thinkers alike. It delves deeply into the mechanics of thought, belief systems, and the neurological underpinnings of perception, all while encouraging an open-minded, playful approach to personal growth. This article examines the key concepts of *Prometheus Rising*, its impact on readers and thinkers, as well as its place within the broader context of consciousness studies and countercultural literature.

Unpacking the Core Concepts of Prometheus Rising

At the heart of Robert Anton Wilson's *Prometheus Rising* lies the exploration of human consciousness through the lens of Timothy Leary's eight-circuit model of the brain. Wilson adapts and expands this model, proposing that our neurological and psychological development occurs in distinct stages or "circuits," each representing different levels of awareness and functionality.

The Eight-Circuit Model Explained

Wilson's interpretation of the eight-circuit model divides human consciousness into the following circuits:

1. **Bio-survival Circuit:** Concerned with basic survival instincts, safety, and physical well-being.
2. **Emotional-Territorial Circuit:** Governs emotions, social dominance, and territorial behaviors.
3. **Symbolic or Semantic Circuit:** Deals with language, symbols, and abstract thought.
4. **Domestic or Socio-Sexual Circuit:** Focuses on social roles, sexuality, and cultural conditioning.
5. **Neurosomatic Circuit:** Associated with bodily sensations, pleasure, and higher sensory awareness.
6. **Neuroelectric or Metaprogramming Circuit:** Involves self-awareness of thought processes and reprogramming of beliefs.
7. **Neurogenetic Circuit:** Connects to collective unconscious, genetic memory, and evolutionary awareness.
8. **Quantum or Non-Local Circuit:** Explores mystical experience, cosmic consciousness, and

non-local awareness.

By navigating through these circuits, Wilson argues, individuals can transcend programmed limitations and access higher states of consciousness. This model serves as the backbone for the exercises and experiments suggested throughout *Prometheus Rising*, aiming to foster cognitive flexibility and self-liberation.

Cognitive Flexibility and Reality Tunnels

Another critical concept introduced by Wilson is the idea of “reality tunnels.” This term describes the subjective filters through which individuals perceive the world, shaped by culture, biology, and personal experiences. *Prometheus Rising* encourages readers to recognize their own reality tunnels and consciously work to shift or expand them. This aligns with Wilson’s broader philosophy that reality is not an objective constant but a mutable construct shaped by perception and belief.

The exercises in the book focus on breaking free from rigid mental frameworks, urging readers to experiment with different perspectives. This approach has resonated particularly well with readers interested in neuro-linguistic programming, cognitive psychology, and transformational practices.

The Impact and Legacy of Robert Anton Wilson’s Work

Prometheus Rising remains a touchstone in the fields of psychedelic literature, consciousness research, and alternative psychology. Its influence extends beyond its initial countercultural audience, finding relevance in academic discussions about the neuroplasticity of belief and perception.

Comparison with Wilson’s Other Works

While Robert Anton Wilson is perhaps best known for the *Illuminatus!* Trilogy, co-authored with Robert Shea, *Prometheus Rising* offers a more structured and practical approach to his ideas. The *Illuminatus!* books are sprawling, satirical, and fictionalized explorations of conspiracy and chaos, whereas *Prometheus Rising* is a focused manual on mental reprogramming and consciousness expansion.

Readers seeking a hands-on guide to applying Wilson’s theories will find *Prometheus Rising* more accessible and actionable. It complements his fiction by providing the theoretical and experiential tools necessary for personal transformation.

Relevance in Contemporary Consciousness Studies

The resurgence of interest in psychedelic research and altered states of consciousness has brought renewed attention to *Prometheus Rising*. Wilson’s early integration of neurological models with

experiential practices anticipated many current trends in psychology and neuroscience. Concepts like neuroplasticity and the role of belief in shaping reality are now mainstream topics, yet Wilson's work was pioneering in framing these ideas within a comprehensive, accessible system.

Moreover, Prometheus Rising's emphasis on metaprogramming—the conscious modification of one's own thought patterns—parallels modern therapeutic approaches such as cognitive-behavioral therapy and mindfulness-based interventions. This alignment underscores Wilson's foresight in identifying the mind's capacity for self-directed evolution.

Features and Practical Applications in Prometheus Rising

Prometheus Rising is not merely theoretical; it is designed as a workbook for mental experimentation. Wilson includes a variety of exercises, meditations, and thought experiments to help readers test and expand their consciousness.

Key Exercises and Techniques

- **Reality Tunnel Experiments:** Tasks that encourage observing and altering habitual perceptions.
- **Breath Control and Sensory Awareness:** Practices aimed at enhancing bodily and sensory consciousness.
- **Language Games:** Exercises that explore the influence of semantics and language on thought.
- **Emotional Reconditioning:** Techniques to identify and reprogram emotional responses.
- **Metaprogramming Drills:** Strategies to become aware of and change mental patterns.

These practical components make Prometheus Rising a valuable resource not only for enthusiasts of esoteric knowledge but also for psychologists, educators, and anyone interested in personal development.

Potential Limitations and Critiques

Despite its innovative approach, Prometheus Rising is not without criticism. Some readers find the eight-circuit model overly speculative and lacking empirical support by contemporary scientific standards. The book's eclectic mix of science, mysticism, and counterculture can also be polarizing, potentially alienating those who prefer strictly evidence-based frameworks.

Additionally, the dense prose and complex concepts may present accessibility challenges, requiring

readers to engage deeply and repeatedly to grasp the full scope of Wilson's ideas.

Yet, these critiques are often balanced by praise for the book's originality and the empowering nature of its exercises.

Why Robert Anton Wilson Prometheus Rising Continues to Matter

In an age where understanding the mind and reality is increasingly recognized as vital to personal and societal well-being, Robert Anton Wilson's *Prometheus Rising* offers a unique blend of insight, challenge, and empowerment. Its enduring appeal lies in its invitation to question deeply ingrained assumptions and to explore the vast potential of human consciousness.

For those interested in the intersections of psychology, philosophy, and experiential spirituality, *Prometheus Rising* remains a compelling and thought-provoking guide. It champions the idea that reality is flexible, and through conscious effort, individuals can transcend limiting beliefs to achieve greater awareness and freedom.

Robert Anton Wilson's visionary synthesis of science and mysticism in *Prometheus Rising* continues to inspire readers to rethink their mental models, offering a pathway toward expanded perception and self-mastery that resonates in the ongoing exploration of the human mind.

Robert Anton Wilson Prometheus Rising

robert anton wilson prometheus rising: Prometheus Rising [Texte Imprimé] Robert Anton Wilson, 1992

robert anton wilson prometheus rising: Prometheus Rising Robert Anton Wilson, 2003
Prometheus Rising describes the landscape of human evolution and offers the reader an opportunity to become a conscious participant. In an astoundingly useful road map infused with humor and startling insight, Robert Anton Wilson presents the Eight Circuits of the Brain model as an essential guide for the effort to break free of imprinted and programmed behavior, Bob writes, We are all giants, raised by pygmies, who have learned to walk with a perpetual mental crouch. Unleashing our full stature, our total brain power is, what this book is all about.

robert anton wilson prometheus rising: The Shamanic Path to Quantum Consciousness Laurent Huguelit, 2013-12-17
Uniting shamanism with quantum physics and psychology for conscious evolution, manifestation of desires, and the development of the soul • Details each of the 8 circuits of consciousness, from the first circuit of physical survival to the eighth circuit of quantum consciousness • Reveals how to balance and upgrade your circuits through shamanic techniques and activate your creative power to shape reality • Explains how the 8 circuits are interconnected through feedback loops--if one is overactive, it can cause the others to shut down First outlined by Timothy Leary and later expanded by Robert Anton Wilson and Antero Alli, the eight-circuit model of consciousness explains how the soul is multidimensional and functions on eight distinct interconnected planes that form the eight circuits of conscious awareness. Each circuit is connected to certain behaviors and personality traits--the second circuit, for example, is connected to emotional consciousness, such as intuition, feelings of courage, or, in its unbalanced state, aggression and

domination, and the eighth circuit, the creative circuit of quantum consciousness, is related to limitless perception, understanding, and action that extends far beyond the limits of planet Earth. Laurent Huguelit explains how these eight levels of awareness are interconnected through feedback loops, forming a cybernetic mapping of the soul. He explores the underactive, overactive, and balanced states of each circuit, offering many psychological profiles as examples. He reveals how activating a circuit that has been neglected can help bring another into balance. Connecting this model of conscious evolution to shamanism--the oldest consciousness science known to man--the author explains how to balance and upgrade your own circuits through shamanic techniques. He reveals how to reconnect with source energy by deprogramming trauma from your childhood that can affect your circuits. With access to this unlimited energy you can activate your innate creative power to manifest your desires and shape reality. Uniting shamanism and the law of attraction with advanced concepts of modern psychology, quantum physics, and the Akashic field theory of Ervin Laszlo, Laurent Huguelit offers a practical map of human consciousness and the development of the soul as well as a vision for the cybernetic future of shamanism.

robert anton wilson prometheus rising: *The Universal Mind* Xiphias Press, 2016-09-01 "The Universal Mind: The Evolution of Machine Intelligence and Human Psychology" There is the perception of being totally omniscient where one has access to all knowledge having a complete understanding of everything. There is also the perception of being totally "One with the Universe", One with Nature or the Universal Mind. During this time one is also experiencing the feeling of total love, acceptance and peace. This book examines the relationship of mind as intelligence and consciousness to matter-energy and space-time. The concepts of Universal Mind or Collective Unconsciousness are discussed and related to physical phenomena such as the holographic distribution of information throughout all of space and the universe. From the paintings of Salvador Dalí to Carl Jung's Archetypes and his Red Book, and how they describe our collective subconscious, to Machine Learning and Whole Genome Sequencing. The Universal Mind explores the collective world consciousness, super-intelligence, machine intelligence and the practical applications in engineering, medicine, law, and politics. 537 Pages. Tags: Philosophy, Computer Science, Collective Consciousness, Artificial Intelligence, Technological Singularity, Analytical Psychology.

robert anton wilson prometheus rising: Beyond 2012: Catastrophe or Awakening? Geoff Stray, 2009-05-21 An illustrated, encyclopedic overview of the prophecies, calendars, and theories that indicate the year 2012 is a threshold of great change for humanity • Looks at the scientific and anthropological evidence for the rare galactic alignment due to occur in December 2012 • Sifts through the catastrophic theories to show what we might really expect in 2012 In December of 2012 the Mayan Calendar's Great Cycle will come to an end. Opinion remains divided as to whether apocalyptic scenarios of worldwide destruction or utopian visions of a spiritually renewed humanity will prevail after this key date has passed. What is certain, however, is that a rare galactic alignment will occur, one so unique that it is found at the core of many wisdom traditions from around the globe. Geoff Stray has been collecting the vast amounts of data relating to the 2012 phenomena since 1982. Far from confining his research to the Maya, who provide the most prominent predictions indicating this date will herald significant changes for humanity, he has studied the prophetic traditions of other cultures--including the Tibetan, Chinese, Jewish, Ethiopian, and tribal cultures from around the globe--to show the kind of convergence of cosmic purposes happening along a number of parallel tracks. This book offers an extensive study of many modern theories, including Terence McKenna's timewave zero and Maurice Cotterell's sunspot research as well as anomalous phenomena such as near death experiences and crop circles. Sifting through all the scientific research and speculation that the year 2012 has inspired, Geoff Stray provides an encyclopedic look at what we might really expect on this pivotal date.

robert anton wilson prometheus rising: *Quantum Psychology* Robert Anton Wilson, 1990 Throughout human history, thoughts, values and behaviours have been coloured by language and the prevailing view of the universe. With the advent of Quantum Mechanics, relativity, non-Euclidean geometries, non-Aristotelian logic and General Semantics, the scientific view of the world has

changed dramatically from just a few decades ago. Nonetheless, human thinking is still deeply rooted in the cosmology of the middle ages. This is the book to change your way of perceiving yourself -- and the universe. Some say it's materialistic, others call it scientific and still others insist it's mystical. It is all of these -- and none. The book for the 21st Century, complete with exercises. Picks up where Prometheus Rising left off. Some say it's materialistic, others call it scientific and still others insist it's mystical. It is all of these -- and none.

robert anton wilson prometheus rising: Transhumanism David Livingstone, 2015-09-02 Transhumanism is a recent movement that extols man's right to shape his own evolution, by maximizing the use of scientific technologies, to enhance human physical and intellectual potential. While the name is new, the idea has long been a popular theme of science fiction, featured in such films as 2001: A Space Odyssey, Blade Runner, the Terminator series, and more recently, The Matrix, Limitless, Her and Transcendence. However, as its adherents hint at in their own publications, transhumanism is an occult project, rooted in Rosicrucianism and Freemasonry, and derived from the Kabbalah, which asserts that humanity is evolving intellectually, towards a point in time when man will become God. Modeled on the medieval legend of the Golem and Frankenstein, they believe man will be able to create life itself, in the form of living machines, or artificial intelligence. Spearheaded by the Cybernetics Group, the project resulted in both the development of the modern computer and MK-Ultra, the CIA's "mind-control" program. MK-Ultra promoted the "mind-expanding" potential of psychedelic drugs, to shape the counterculture of the 1960s, based on the notion that the shamans of ancient times used psychoactive substances, equated with the "apple" of the Tree of Knowledge. And, as revealed in the movie Lucy, through the use of "smart drugs," and what transhumanists call "mind uploading," man will be able to merge with the Internet, which is envisioned as the end-point of Kabbalistic evolution, the formation of a collective consciousness, or Global Brain. That awaited moment is what Ray Kurzweil, a director of engineering at Google, refers to as The Singularity. By accumulating the total of human knowledge, and providing access to every aspect of human activity, the Internet will supposedly achieve omniscience, becoming the "God" of occultism, or the Masonic All-Seeing Eye of the reverse side of the American dollar bill.

robert anton wilson prometheus rising: Rising in Words Colin Barth, 2008-03-01 Rising in Words is a book replete with new ideas to reform the old-to reorient, to challenge, to provoke thought, to persuade, and to educate. Here is philosophy that matters. Original thought, incisive social commentary, methodical analysis, and creative inspiration come alive in nine high-impact works, covering topics from the meaning of Progress to the impact of history, from the decline of intellectualism to the future of humanity.

robert anton wilson prometheus rising: The Probationer's Handbook George T. Mortimer, 2007-07-15 Mortimer's book is grounded in that of Crowley yet he goes beyond it and I think the Master Therion would applaud. He tackles issues obviously based on experience, which have never been satisfactorily tackled before. If you have the slightest sincere interest in Magick and human evolution, you really must get hold of this book. The author's acid wit regarding New Age garbage adds spice to this excellent work. Do you really want to make Magick? If so, you must beg, borrow or steal a copy of this wonderful book. - Gerald Suster (Talking Stick - Winter 1997/98).

robert anton wilson prometheus rising: The Tower of Babel How the Fall of Man found us in the Age of Terror Tommy Anthony, 2010-04-09

robert anton wilson prometheus rising: The Alchemy of Tarot Juno Lucina, 2011-03-31 Unveil the mysteries of the Tarot by exploring the connection between the ancient systems of astrology and Qabalah, incorporating shared archetypes of humanity and basic myths that infuse our holy traditions. Through exploring fundamental interconnections, the author forms not only a practical method of divination to help you reclaim your own truth, but also an accurate map to guide you in remembering and reawakening to the absolute Truth, reclaiming yourself and your place within existence. This search has been the root of all great religions and philosophies throughout the ages, which describes humanity as asleep in a world unaware of spirit or real meaning. Use any

standard tarot deck with this guide, to unlock these mysteries, to discover the Kingdom of Heaven, the Buddha Within, the City of Brahman, the Philosopher's Stone...and to unearth the divine secrets that you've, too long, buried within.

robert anton wilson prometheus rising: A Long Cold War Jerry Carrier, 2017-11-10 A Long Cold War is a two-volume cultural history of Cold War America from 1945 to 1991. This is the story of America at her peak as a world power, with the fear of nuclear war and the hyper competition with the USSR and China - a good read for the historical, nostalgic or even casual reader.

robert anton wilson prometheus rising: Acorns: Windows High-Tide Foghat Joshua Morris, 2013-01-23 Acorns delineates the future of humanity as a reunification of intellect with the Deep Self. Having chosen to focus upon ego (established securely by the time of Christ), much more beta brain wave development will destroy our species and others, which process has already begun. We create our own realities through beliefs, intents and desires and we were in and out of probabilities constantly. Feelings follow beliefs, not the other way around.

robert anton wilson prometheus rising: Summary of Food of the Gods by Terence McKenna Alden Marshall, A concise and professionally-researched summary of Terence McKenna's book: Food of the Gods. From Alden Marshall's Condensed Esoterica series, this complete summary provides a fast and straightforward way to understand and study the main ideas and concepts of the original source text. About the Original Book: Food of the Gods by Terence McKenna is filled with the personal aspects of his personality and hopes mixed into the history of essential elements through the text and different cultures. McKenna expresses his desire for the legalization of drugs and the return to archaic traditions. In this book, he discusses the ancient use of drugs focusing on plant hallucinogenic and how they might be responsible for shaping humanity in the present; aspects such as language, behavior, and consciousness are explored at length regarding human evolution. Added-value of this summary: * Save time * Understand the key concepts * Expand your knowledge Note to readers: This is an unofficial summary and analysis of the book and not the original book itself. Alden Marshall and the Condensed Esoterica Collection are wholly responsible for this content and are not associated with the original author in any way. You are encouraged to purchase and read the original text in addition to this summary.

robert anton wilson prometheus rising: Hacking the Human Ian Mann, 2017-11-28 Information security is about people, yet in most organizations protection remains focused on technical countermeasures. The human element is crucial in the majority of successful attacks on systems and attackers are rarely required to find technical vulnerabilities, hacking the human is usually sufficient. Ian Mann turns the black art of social engineering into an information security risk that can be understood, measured and managed effectively. The text highlights the main sources of risk from social engineering and draws on psychological models to explain the basis for human vulnerabilities. Chapters on vulnerability mapping, developing a range of protection systems and awareness training provide a practical and authoritative guide to the risks and countermeasures that are available. There is a singular lack of useful information for security and IT professionals regarding the human vulnerabilities that social engineering attacks tend to exploit. Ian Mann provides a rich mix of examples, applied research and practical solutions that will enable you to assess the level of risk in your organization; measure the strength of your current security and enhance your training and systemic countermeasures accordingly. If you are responsible for physical or information security or the protection of your business and employees from significant risk, then Hacking the Human is a must-read.

robert anton wilson prometheus rising: Hearts in Transcendence Alexander De Foe, 2015-01-16 'Hearts in Transcendence' offers an insightful exploration of transcendental consciousness states that challenge the boundaries of human potential. These exceptional states of consciousness have been captured throughout literature, but seldom is the real, tangible, and practical significance of exceptional experiences discussed in the modern world. This book sets out to do just that to uncover the greater potential of the human being through a practical, applied approach to consciousness states and cosmic experiences of transcendence.

robert anton wilson prometheus rising: Metanoia Mon Amour Nicolás Gadda Thompson, 2024-06-28 Today, more than ever, we need to regain a certain clarity, to re-integrate knowledge, to converge in ideas, to return to Oneness. Sacred geometry and introspective psychonautics are lost arts that we must recover. Regenerative development and systemic thinking are new approaches that we must incorporate. Thinking Reality as networks that connect nodes, and not as isolated elements in linear sequence, is the most concrete basic proposal that the reading of this book offers us. Acting generatively as a consequence will be one of the most demanding and relevant challenges of our present time. It is on this basis that the following proposal is developed: to recover lost knowledge, to incorporate it into our mental frameworks and to integrate it with the exercise of modern science and the advent of new technologies. It is time to recognize the symbolic and, at the same time, pragmatic capital that we inherited from our ancestors, and it is also time to celebrate the talent and vocation of those who today are leading disruptive development in all fields of knowledge. This proposal is not just an exercise in historical or social vindication, nor an ode to novelty for the sake of novelty, but rather promotes the key guidelines for the design of a roadmap that will allow us to identify and apply the right solutions to the multiple challenges facing our overwhelmed humanity today. This book is intended for freethinkers of all ages, of all colors and from all corners of the globe; it is a wake-up call that comes from deep within, but it is also a call to action that aims at the most universal.

robert anton wilson prometheus rising: The Globalization of Musics in Transit Simone Krüger, Ruxandra Trandafoiu, 2013-12-04 This book traces the particularities of music migration and tourism in different global settings, and provides current, even new perspectives for ethnomusicological research on globalizing musics in transit. The dual focus on tourism and migration is central to debates on globalization, and their examination—separately or combined—offers a useful lens on many key questions about where globalization is taking us: questions about identity and heritage, commoditization, historical and cultural representation, hybridity, authenticity and ownership, neoliberalism, inequality, diasporization, the relocation of allegiances, and more. Moreover, for the first time, these two key phenomena—tourism and migration—are studied conjointly, as well as interdisciplinary, in order to derive both parallels and contrasts. While taking diverse perspectives in embracing the contemporary musical landscape, the collection offers a range of research methods and theoretical approaches from ethnomusicology, anthropology, cultural geography, sociology, popular music studies, and media and communication. In so doing, Musics in Transit provides a rich exemplification of the ways that all forms of musical culture are becoming transnational under post-global conditions, sustained by both global markets and musics in transit, and to which both tourists and diasporic cosmopolitans make an important contribution.

robert anton wilson prometheus rising: The Enlightenment of Work: Revealing the Path to Happiness, Contentment and Purpose in your Job Steve Nobel Author, 2012-09-09 The Enlightenment of Work is about ending the suffering when we feel anger, misery and unhappiness with unenlightened work. This book is essential for anyone wishing to: Transform your suffering at work: Suffering can come in many ways. It can come through feeling aimless and bored where the only reason for being there is to collect a salary each month. It can come through stress, overwork and burnout. This book offers a simple philosophy: suffering happens - but we can transform that suffering. Realise their innate gifts, talents and purpose: Most work disconnects us from knowing our authentic self - our essence or soul. Trust your courage, ideas, intuition, and discover your true self. Reclaim their time: Time is your most precious resource and one you cannot afford to waste. However, many of us work in busy environments that leave little time for real thinking or reflection, or for doing anything very new or interesting. Busy and idle minds can get locked into different forms of anxiety about the past and the future. The changing world of work demands emotional and spiritual intelligence. No one has to stay with work that oppresses the spirit. This new world is about choice.

robert anton wilson prometheus rising: The Seventh Major Understanding Jordan Gray,

2011-04-01 Global awakening is happening now! Each of us is here to play our role in this adventure of transformation. Learning and living The Seventh Major Understanding brings a modern Golden Age into focus. Joshua, a nonphysical being, shares fascinating ideas about humanity's path out of the age of material accumulation into an age of peace, love, abundance, and understanding. Joshua's views about God, reincarnation, the ego, karma, judgment, and other religious teachings differ from traditional wisdom. He takes a fresh look at these concepts, and he urges us to transcend the spiritual boundaries of both Eastern and Western religions. Joshua builds upon our knowing that we create our personal and global reality. Awakening to our oneness with All That Is, is the path to a new way of life. The Seventh Major Understanding shines a light on our path into a brighter personal and shared reality - a new Golden Age.
