roll of thunder hear my cry notes: A Centennial Celebration of The Brownies' Book Dianne Johnson-Feelings, Jonda C. McNair, 2022-10-21 Contributions by Jani L. Barker, Rudine Sims Bishop, Julia S. Charles-Linen, Paige Gray, Dianne Johnson-Feelings, Jonda C. McNair, Sara C. VanderHaagen, and Michelle Taylor Watts The Brownies' Book occupies a special place in the history of African American children's literature. Informally the children's counterpart to the NAACP's The Crisis magazine, it was one of the first periodicals created primarily for Black youth.

Several of the objectives the creators delineated in 1919 when announcing the arrival of the publication—"To make them familiar with the history and achievements of the Negro race" and "To make colored children realize that being 'colored' is a beautiful, normal thing"—still resonate with contemporary creators, readers, and scholars of African American children's literature. The meticulously researched essays in *A Centennial Celebration of The Brownies' Book* get to the heart of The Brownies' Book "project" using critical approaches both varied and illuminating. Contributors to the volume explore the underappreciated role of Jessie Redmon Fauset in creating The Brownies' Book and in the cultural life of Black America; describe the young people who immersed themselves in the pages of the periodical; focus on the role of Black heroes and heroines; address The Brownies' Book in the context of critical literacy theory; and place The Brownies' Book within the context of Black futurity and justice. Bookending the essays are, reprinted in full, the first and last issues of the magazine. *A Centennial Celebration of The Brownies' Book* illuminates the many ways in which the magazine—simultaneously beautiful, complicated, problematic, and inspiring—remains worthy of attention well into this century.

roll of thunder hear my cry notes: Fostering Collaborations Between African American Communities and Educational Institutions Jones, Patrice Wynette, 2019-12-13 Historically, African American communities were marked by a strong sense of community, promoted by limited resources and racial segregation. However, with integration, African American populations grew less concentrated in the same areas, and this population of people began to rely less on each other. In an effort to attain equality, which still at times feels elusive and challenged, the sense of community and impact of education once prevalent among African Americans has suffered. *Fostering Collaborations Between African American Communities and Educational Institutions* is a pivotal reference source that explores pre-segregation experiences of community and education, as well as the changes among HBCUs and public education in predominately African American and poor areas.

The book sheds light on the relationship between racial and educational disparities and reveals the impact of community and cultural co-dependence in moving African Americans toward a more socially equitable place within American culture. Covering topics such as the achievement gap, community relationships, and teacher education, this publication is ideally designed for educators, higher education faculty, HBCUs, researchers, policymakers, non-profit organizers, historians, sociologists, academicians, and students.
