Feldman's *Understanding Psychology* does. Using a revolutionary revision process, Bob Feldman's *Understanding Psychology* is a fully integrated learning system that gives students an even greater opportunity to achieve success, and brings the Students First goal to a new level. With an adaptive learning system that provides an individualized learning environment and helps students identify what they know, and more importantly, what they don't, every student has a unique experience refined to their needs. The thoroughly revised Eleventh Edition is a first of its kind, revised using "HeatMap" technology in which systematic and precise feedback from thousands of students was anonymously measured using LearnSmart, the adaptive learning diagnostic.
