In few words, the reality sucks and we dream of a life that we will never have, because deep inside us, we dont really believe we will ever meet this reality. But it must be a simple way ... otherwise we know that we will not follow the path. Everything is happening is related to us, and everything could happen is also related to us. The magic answeare, because we are looking only for magic answeares, is the art of defining life. Yes ... this is an art. We need to start be honest with ourself, and all the answeares to simple questions as "why am i fat?! ... because i eat to much" , "why my partner is cheating on me?! ... because i did not knew to be that perfect partner that i had to be" and the list of questions will go on. We need to start defining what we dont like. Once we undestand that the change is in our powers and if we really want a change, we will start the process of achieving the new life we dream at. We dont need to go to a therapist, we dont need to study motivational issues of social media and dont even need to read hundreds or thousands of books to start the change process. The art of defining our lifes, means that we have the courage to understand what we dont like and define very clear how our reality should look like. The depression, or what we call depression, because many things are unclear in our minds, is this huge gap between where we are now and where we want to be. We are looking for a magic bridge that should help us go very easilly from one point to the other. The process itself is a very simple one, as long as we decide to be honest to us. The art of defining ... yes ... is an art. And also to live ... is an art. Once we decide that we are brave enough to live our lifes... the dream life... the magic will happen, cause all the magic is our powers.

Adams, 2013-09-11 As a young man Bill Adams travelled the world teaching US citizens abroad on behalf of a large state university on the East Coast. In time he came to see that his lifelong interest in how the mind works could be the clue to the meaning of life. Socrates had been right all along: Know thyself. Adams now sets out a new reasoned argument, based on his experience as a cognitive psychologist and as a human being, to show why Socrates was right: the purpose of life is to recognize ourselves - in each other and in all things. The mind is looking for itself: that is how it works, that is what it does for a living.

chop wood carry water meaning: *The Conceptual Garment: Volumes on Fashion, Art and Archive(Vol. III)* By Salar Bil Salar Bil, Vol. III— The Participatory Garment: Relation, Gesture,

Solidarity, and Ritual: This third volume in The Conceptual Garment series turns toward the relational life of dress: garments made to be activated, shared, held in public, burned in protest, or passed hand to hand. It centers fashion as a site of participation, solidarity, and gesture—where design becomes a conduit for social ritual, collective grief, and political intimacy. Drawing on performance studies, feminist theory, postcolonial resistance, and embodied archives, the essays explore how clothing gathers people into temporary alliances—at funerals, at protests, in diaspora, in refusal. These are not commercial garments. They are relational tools: veils, banners, burial cloths, uniforms, inherited silences. The work here considers not only what fashion does on the body, but what it does between bodies. It asks how fabric choreographs collective memory, how design stages togetherness, and how resistance is stitched into the space between us.
