a place to stand jimmy santiago baca: Prose and Cons D. Quentin Miller, 2005-10-04 As the United States' prison population has exploded over the past 30 years, a rich, provocative and ever-increasing body of literature has emerged, written either by prisoners or by those who have come in close contact with them. Unlike earlier prison writings, contemporary literature moves in directions that are neither uniformly ideological nor uniformly political. It has become increasingly personal, and the obsessive subject is the way identity is shaped, compromised, altered, or obliterated by incarceration. The 14 essays in this work examine the last 30 years of prison literature from a wide variety of perspectives. The first four essays examine race and ethnicity, the social categories most evident in U.S. prisons. The three essays in the next section explore gender, a prominent subject of prison literature highlighted by the absolute separation of male and female inmates. Section three provides three essays focused on the part ideology plays in prison writings. The four essays in section four consider how aesthetics and language are used, seeking to define the qualities of the literature and to determine some of the reasons it exists.

a place to stand jimmy santiago baca: Timelines of American Literature Cody Marrs, Christopher Hager, 2019-01-29 A collection of engaging essays that seeks to uniquely reperiodize American literature. It is all but inevitable for literary history to be divided into periods. Early American, antebellum, modern, post-1945—such designations organize our knowledge of the past and shape the ways we discuss that past today. These periods tend to align with the watershed moments in American history, even as the field has shifted its perspective away from the nation-state. It is high time we rethink these defining periods of American literary history, as the

drawing of literary timelines is a necessary—even illuminating—practice. In these short, spirited, and imaginative essays, 23 leading Americanists gamely fashion new, unorthodox literary periods—from 600 B.C.E. to the present, from the Age of Van Buren to the Age of Microeconomics. They bring to light literary and cultural histories that have been obscured by traditional timelines and raise provocative questions. What is our definition of modernism if we imagine it stretching from 1865 to 1965 instead of 1890 to 1945? How does the captivity narrative change when we consider it as a contemporary, not just a colonial, genre? What does the course of American literature look like set against the backdrop of federal denials of Native sovereignty or housing policies that exacerbated segregation? Filled with challenges to scholars, inspirations for teachers (anchored by an appendix of syllabi), and entry points for students, *Timelines of American Literature* gathers some of the most exciting new work in the field to showcase the revelatory potential of fresh thinking about how we organize the literary past.

Led by the Catholic priests Phil and Dan Berrigan, the Catholic Left quickly became one of the most important sectors of the Vietnam War-era peace movement after a nonviolent raid on a draft board in Catonsville, MD, in May 1968. With an overview of the broader draft resistance movement, *Burglar for Peace* is an exploration of the sweeping landscape of the American Left during the Vietnam War era as we accompany Ted Glick on a journey through his personal evolution from typical, white, middle-class, American teenager to an antiwar, nonviolent draft resister. Glick vividly recounts the development of the Catholic Left as it organized scores of nonviolently disruptive, effective actions inside draft boards, FBI offices, war corporation offices, and other sites. *Burglar for Peace* is the first in-depth, inside look at one of the major political trials of Catholic Left activists, in Rochester, NY, in 1970, as well as a second one in 1972 in Harrisburg, PA. With great humility, Glick recalls how his selfless devotion to ending the war in Vietnam resulted in his eleven months of imprisonment, which included a thirty-four-day hunger strike, and he tells the remarkable story of a Catholic Left-organized, forty-day hunger strike against the war. Concluding the story is a reflective account of Glick's open resignation from the Catholic Left in 1974, his eighteen-year estrangement from Phil and Dan Berrigan, and the eventual healing of that relationship. The final chapter relates timeless lessons learned by the author that will find deep resonance among activists today. *Burglar for Peace* will serve as both an inspiration and an invaluable resource for those committed to transformational, revolutionary change.

This connection to the past feels familiar for some and less relevant for others. Understanding and responding to these connections is more crucial than ever, yet some resist rather than face this task directly. Others resist oppressive postcolonial conditions. Using intercultural stories and pastoral care scholarship, this book charts pathways through five resistances (not me, not here, not now, not relevant, not possible) to awaken creative pastoral care in a postcolonial world. McGarrah Sharp recommends practices that everyone can do: believing in each other, revisiting how histories are taught, imagining more passable futures, heeding prophetic poets, and crossing borders with healthy boundaries.

By exploring the complicated relationship between life writing and institutional power, this book reveals the overlooked aesthetic innovations of incarcerated people and the surprising literary roots of the U.S. prison system. Simon Rolston observes that the autobiographical work of incarcerated people is based on a conversion narrative, a story arc that underpins the concept of prison rehabilitation and that sometimes serves the interests of the prison system, rather than those on the inside. Yet many imprisoned people rework the conversion narrative the way they repurpose other objects in prison. Like a radio motor retooled into a tattoo gun, the conversion narrative has been redefined by some authors for subversive purposes, including questioning the ostensible emancipatory role of prison writing, critiquing white supremacy, and broadly reimagining autobiographical discourse. An interdisciplinary work that brings life writing scholarship into conversation with prison studies and law and literature studies, *Prison Life Writing* theorizes how life writing works in prison, explains literature's complicated entanglements with institutional power, and demonstrates the political and aesthetic innovations of one of America's most fascinating literary genres.
