citizenship practice test questions and answers 2014: *Multinationals, Poverty Alleviation and UK Aid* Jo-Anna Russon, 2023-10-12 This book analyses the complex relationship between the private sector, UK official development assistance (ODA) and poverty alleviation in sub-Saharan Africa. In recent years, the private sector has occupied an increasingly prominent position within UK ODA, bringing a range of opportunities and conflicting interests. This book first traces the trajectory of private sector engagement in ODA, before setting out the theoretical and analytical framework for analysing the mutual prosperity agenda in UK ODA – the notion that ODA can benefit both donor and beneficiary country interests. By extending corporate social responsibility theory (in the emerging field of business and development studies) to ODA, the book critiques the underlying assumptions contained within UK ODA-multinational corporation partnerships. With reference to three case studies GlaxoSmithKline plc., Barclays plc. and Anheuser-Busch InBev (formerly SABMiller), the book identifies where the activities of multinational corporations support and/or undermine ODA goals and the implications for the UK's mutual prosperity agenda. Overall, the book reflects a pragmatic approach to maximising the role of private sector actors in ODA, whilst also drawing

attention to the opportunities and challenges in the mutual prosperity agenda. The book will be of interest to researchers from business management, development studies and political science, as well as to practitioners with an interest in the role of the private sector in ODA.

citizenship practice test questions and answers 2014: Punishment and Citizenship Milena Tripkovic, 2019 Criminal disenfranchisement-the practice of restricting electoral rights following criminal conviction-is the only surviving electoral restriction of adult, mentally competent citizens in contemporary democracies. Despite the strong devotion to the principle of universal suffrage, criminal offenders are still routinely deprived of active and passive franchise, while the justifications for such limitations remain elusive and incoherent. In *Punishment and Citizenship*, Milena Tripkovic develops an empirical and normative account of criminal disenfranchisement. Starting from historical precedents of such restrictions and examining the current policies of a number of European countries, Tripkovic argues that while criminal disenfranchisement is considered a form of punishment, it should instead be viewed as a citizenship sanction imposed when a citizen fails to perform their role as a member of a political community. In order to determine the justifications of disenfranchisement, Tripkovic explores various citizenship ideals and examines whether criminal offenders comply with the expectations that are posed before them. After developing a theoretical framework of citizenship duties, Tripkovic concludes that very few criminal offenders fail to satisfy fundamental citizenship conditions and exhaustive voting restrictions cannot ultimately be justified. A comprehensive assessment of criminal disenfranchisement, *Punishment and Citizenship* offers concrete policy suggestions to determine the limited circumstances under which electoral rights could justifiably be withheld from criminal offenders.

citizenship practice test questions and answers 2014: Public Service Motivation Neil M. Boyd, 2023-12-05 This book evaluates public service motivation (PSM) within the milieu of a broader conceptual and theoretical landscape beyond public management with a primary focus in management and the social sciences. As the literature around public management has evolved, scholars have suggested that PSM can direct applicants toward public service-oriented careers, and once hired, many have posited that PSM is linked to psychological outcomes and behavioral activity within public service-oriented organizations. Although some scholars have attempted to characterize and study PSM in relation to concepts outside of public management, the vast majority of scholarship has been grounded specifically in the public management literature. This is true when characterizing PSM as a factor that relates to career choice as well as a predictor of motivated states once one occupies a role within an organization. Given its continued vigor and its legitimacy, it could be argued that in recent decades, PSM has indeed become one of the most prominent concepts in public management. This book will be of interest to researchers and students in the fields of public management and public administration, as well as to policy makers and public service managers. The chapters in this book were originally published in Public Management Review.

Prince, 2019-05-31 Bringing together top scholars in the field, Universality and Social Policy in Canada provides an overview of the universality principle in social welfare. The contributors survey the many contested meanings of universality in relation to specific social programs, the field of social policy, and the modern welfare state. citizenship practice test questions and answers 2014: Narkomania Jennifer J. Carroll, 2019-06-15 Against the backdrop of a post-Soviet state set aflame by geopolitical conflict and violent revolution, Narkomania considers whether substance use disorders are everywhere the same and whether our responses to drug use presuppose what kind of people those who use drugs really are. Jennifer J. Carroll's ethnography is a story about public health and international efforts to quell the spread of HIV. Carroll focuses on Ukraine where the prevalence of HIV among people who use drugs is higher than in parts of sub-Saharan Africa and unpacks the arguments and myths surrounding medication-assisted treatment (MAT) in Ukraine. What she presents in Narkomania forces us to question drug policy, its uses, and its effects on normal citizens. Carroll uses her findings to explore what people who use drugs can teach us about the contemporary societies emerging in post-Soviet space. With examples of how MAT has been politicized, how drug use has been tied to ideas of good citizenship, and how vigilantism towards people who use drugs has occurred, Narkomania details the cultural and historical backstory of the situation in Ukraine. Carroll reveals how global efforts supporting MAT in Ukraine allow the ideas surrounding MAT, drug use, and HIV to resonate more broadly into international politics and echo into the heart of the Ukrainian public.

citizenship practice test questions and answers 2014: Power in Deliberative Democracy Nicole Curato, Marit Hammond, John B. Min, 2018-10-10 Deliberative democracy is an embattled political project. It is accused of political naiveté for it only talks about power without taking power. Others, meanwhile, take issue with deliberative democracy's dominance in the field of democratic theory and practice. An industry of consultants, facilitators, and experts of deliberative forums has grown over the past decades, suggesting that the field has benefited from a broken political system.

This book is inspired by these accusations. It argues that deliberative democracy's tense relationship with power is not a pathology but constitutive of deliberative practice. Deliberative democracy gains relevance when it navigates complex relations of power in modern societies, learns from its mistakes, remains epistemically humble but not politically meek. These arguments are situated in three facets of deliberative democracy—norms, forums, and systems—and concludes by applying these ideas to three of the most pressing issues in contemporary times—post-truth politics, populism, and illiberalism.

citizenship practice test questions and answers 2014: EU Criminal Law after Lisbon Valsamis Mitsilegas, 2016-06-30 This monograph is the first comprehensive analysis of the impact of the entry into force of the Treaty of Lisbon on EU criminal law. By focusing on key areas of criminal law and procedure, the book assesses the extent to which the entry into force of the Lisbon Treaty has transformed European criminal justice and evaluates the impact of post-Lisbon legislation on national criminal justice systems. The monograph examines the constitutionalisation of EU criminal law after Lisbon, by focusing on the impact of institutional and constitutional developments in the field including the influence of the EU Charter of Fundamental Rights on EU criminal law. The analysis covers aspects of criminal justice ranging from criminalisation to judicial co-operation to prosecution to the enforcement of sanctions. The book contains a detailed analysis and evaluation of

the powers of the Union to harmonise substantive criminal law and the influence of European Union law on national substantive criminal law; of the evolution of the Europeanisation of prosecution from horizontal co-operation between national criminal justice to forms of vertical integration in the field of prosecution as embodied in the evolution of Eurojust and the establishment of a European Public Prosecutor's Office; of the operation of the principle of mutual recognition (by focusing in particular on the European Arrest Warrant System) and its impact on the relationship between mutual trust and fundamental rights; of EU legislation in the field on criminal procedure, including legislation on the rights of the defendant and the victim; of the relationship between EU criminal law and citizenship of the Union; and of the evolution of an EU model of preventive justice, as exemplified by the proliferation of measures on terrorist sanctions. Throughout the book, the questions of the UK participation in Europe's area of criminal justice and the feasibility of a Europe à-la-carte in EU criminal law are examined. The book concludes by highlighting the possibilities that the Lisbon Treaty opens for the development of a new paradigm of European criminal justice, which places the individual (and not the state), and the protection of fundamental rights (and not security) at its core.
