where was marlene dietrich born: **Marlene** Charlotte Chandler, 2011-03-29 In Marlene, the legendary Hollywood icon is vividly brought to life, based on a series of conversations with the star

herself and with others who knew her well. In the mid-1970s Charlotte Chandler spoke with Marlene Dietrich in Dietrich's Paris apartment. The star's career was all but over, but she agreed to meet because Chandler hadn't known Dietrich earlier, "when I was young and very beautiful." Dietrich may have been retired, but her appearance and her celebrity—her famous mystique—were as important to her as ever. Marlene Dietrich's life is one of the most fabulous in Hollywood history. She began her career in her native Berlin as a model, then a stage and screen actress during the silent era, becoming a star with the international success *The Blue Angel*. Then, under the watchful eye of the director of that film, her mentor Josef von Sternberg, she came to America and became one of the brightest stars in Hollywood. She made a series of acclaimed pictures—*Morocco*, *Shanghai Express*, *Blonde Venus*, *Destry Rides Again*, among many others—that propelled her to international stardom. With the outbreak of World War II, the fiercely anti-Nazi Dietrich became an American citizen and entertained Allied troops on the front lines. After the war she embarked on a new career as a stage performer, and with her young music director, the gifted Burt Bacharach—whom Chandler interviewed for the book—Dietrich had an outstanding second career. Dietrich spoke candidly with Chandler about her unconventional private life: although she never divorced her husband, Rudi Sieber, she had numerous well-publicized affairs with his knowledge (and he had a longtime mistress with her approval). By the late 1970s, plagued by accidents, Dietrich had become a virtual recluse in her Paris apartment, communicating with the outside world almost entirely by telephone. Marlene Dietrich lived an extraordinary life, and Marlene relies extensively on the star's own words to reveal how intriguing and fascinating that life really was.

where was marlene dietrich born: The Economics of Sustainable Development and Distribution Dariusz Pieńkowski, 2023-12-05 Drawing on a broad transdisciplinary background, this book compares distributive justice systems and related socioeconomic institutions within the liberal and sustainable development traditions. Confronting the capitalist worldview of prominent Nobel Prize-winning economist Milton Friedman, the book offers a theoretical framework for sustainable development: a new paradigm of economics grounded in environmental and social issues. The analysis takes as its starting point that the development and evolution of human beings is codetermined by socioeconomic institutions. These institutions facilitate models of society, morality and human behaviour: they are all social constructs. This matters because the liberal system of justice uses the claim that 'life is unfair' as the justification of socioeconomic inequalities, and it is these institutions which determine the concepts of fairness and justice. Therefore, the liberal system's favouring of entrepreneurs should require advance measures to safeguard the interests of the losers—instead, it seeks to justify their misfortunes. It is argued that this liberal notion of fairness can only be fairly executed in conditions of perfect market competition, which have never existed. In contrast, the principles of sustainable development pay attention to the problems generated by the unjust and unfair distribution of resources and postulate wider use of the fairness formula 'to each according to their needs'. It is thus more focused on fair ends than on fair procedures. This book is addressed to scholars and advanced students in ecological economics, environmental economics, economics of sustainable development and political science.

In the years preceding WWII, a wide variety of artistic forms were used to instill a Nazi ideology in the German people and to manipulate the public perception of Hitler's enemies.
