

consumer behaviour in marketing management

Consumer Behaviour in Marketing Management: Understanding the Heart of Successful Strategies

consumer behaviour in marketing management is a critical component that shapes how businesses connect with their target audiences and ultimately succeed in competitive markets. At its core, it involves studying how individuals or groups select, purchase, use, and dispose of products or services, and how these behaviors influence marketing decisions. Understanding consumer behaviour allows marketers to tailor their strategies in ways that resonate deeply with their customers' needs, preferences, and emotions, leading to more effective campaigns and stronger brand loyalty.

In today's fast-evolving marketplace, where customers are bombarded with countless choices and messages every day, grasping the nuances of consumer behaviour is more essential than ever. It's not just about selling a product; it's about creating meaningful experiences that align with consumers' values and lifestyles. Let's dive into the various facets of consumer behaviour in marketing management and explore how businesses leverage these insights to foster lasting relationships with their customers.

The Importance of Consumer Behaviour in Marketing Management

Understanding consumer behaviour empowers marketers to make informed decisions, reduce risks, and optimize resource allocation. When companies comprehend what motivates their customers, how they gather information, and the factors influencing their purchasing decisions, they can design targeted marketing strategies that speak directly to those needs.

Driving Product Development and Innovation

Consumer insights derived from behaviour analysis often guide product development. By observing trends and customer feedback, businesses can innovate new solutions or improve existing offerings to better meet expectations. For instance, if consumers show a growing preference for sustainable products, companies can respond by incorporating eco-friendly materials or ethical sourcing into their production processes.

Enhancing Customer Experience

Consumer behaviour analysis helps marketers craft personalized experiences. Whether it's through tailored messaging, customized promotions, or intuitive website interfaces, understanding how different segments behave allows for creating touchpoints that feel relevant and engaging. This personalization increases customer satisfaction and encourages repeat business.

Key Factors Influencing Consumer Behaviour

The decisions consumers make are influenced by a complex interplay of psychological, social, cultural, and personal factors. Marketers must consider these elements to predict buying patterns and design effective campaigns.

Psychological Influences

- **Motivation:** What drives a consumer to fulfill a need or desire? Whether it's basic necessities or aspirational goals, motivation underpins all purchase decisions.
- **Perception:** How a consumer interprets information can vary widely. Two people might view the same advertisement differently based on their experiences and beliefs.
- **Learning:** Previous experiences with a brand or product shape future behaviour. Positive interactions increase the likelihood of repeat purchases.
- **Attitudes and Beliefs:** Deeply held opinions about a brand or category influence openness to marketing messages.

Social and Cultural Influences

Consumers don't make decisions in isolation. Family, friends, social networks, and cultural background play significant roles in shaping preferences and behaviours. For example, peer recommendations often carry more weight than traditional advertisements, especially among younger demographics.

Personal Factors

Age, occupation, lifestyle, economic situation, and personality traits all affect how consumers approach buying. A young professional's priorities may differ vastly from those of a retiree, so segmentation based on these factors is crucial.

Understanding the Consumer Decision-Making Process

Marketers who grasp the stages consumers go through before making a purchase can design touchpoints that gently guide them along the path. The decision-making process typically includes:

1. **Problem Recognition:** The consumer identifies a need or a problem. This might be triggered by internal stimuli (like hunger) or external stimuli (like advertising).
2. **Information Search:** Once aware of the need, consumers seek information from various sources—online reviews, social media, friends, or expert opinions.
3. **Evaluation of Alternatives:** Consumers compare different brands or products, weighing features, prices, and benefits.
4. **Purchase Decision:** After evaluating options, the consumer selects a product and completes the transaction.
5. **Post-Purchase Behaviour:** Post-purchase satisfaction or dissatisfaction impacts future behaviour and brand loyalty.

Marketers can influence each stage by providing relevant information, building trust, and ensuring a seamless buying experience.

Leveraging Technology to Analyze Consumer Behaviour

The digital age has transformed how marketers study and respond to consumer behaviour. Data analytics, artificial intelligence, and machine learning provide unprecedented insights into customer preferences and trends.

Big Data and Consumer Insights

By collecting vast amounts of data from social media, e-commerce platforms, and mobile apps, companies can identify patterns and predict future behaviour. This allows for hyper-targeted marketing and real-time personalization.

Behavioral Segmentation

Rather than relying solely on demographics, marketers segment consumers based on behaviors such as purchase history, browsing habits, and engagement levels. This approach leads to more relevant marketing messages and improved conversion rates.

Predictive Analytics

Using algorithms, businesses can forecast which products a consumer is likely to buy next or identify customers at risk of churn. Predictive analytics supports proactive marketing interventions to retain customers and increase lifetime value.

Tips for Marketers to Effectively Utilize Consumer Behaviour Insights

Understanding theory is one thing, but applying consumer behaviour insights effectively can be challenging. Here are practical tips for marketing managers aiming to harness these insights:

- **Invest in Continuous Research:** Consumer preferences evolve, so ongoing market research is vital to stay in tune with changing behaviours.
- **Use Multi-Channel Approaches:** Different consumers prefer different platforms; integrating online and offline channels ensures broader reach and engagement.
- **Personalize Communications:** Tailored messages based on behaviour data enhance relevance and customer connection.
- **Monitor Social Media Trends:** Social platforms are rich sources of consumer sentiment and emerging trends that can inform marketing strategies.
- **Encourage Feedback and Interaction:** Direct engagement with customers helps refine understanding and builds community around the brand.

Real-World Examples of Consumer Behaviour

Impacting Marketing Strategies

To illustrate the power of understanding consumer behaviour in marketing management, consider these examples:

Apple's Focus on User Experience

Apple's marketing success stems from deep insight into its customers' desire for simplicity, design elegance, and seamless integration. Their campaigns emphasize lifestyle benefits rather than technical specs, resonating emotionally with consumers.

Netflix's Personalization Algorithm

Netflix analyzes viewing patterns to recommend content tailored to individual tastes. This behavioural insight keeps subscribers engaged and reduces churn, showcasing how data-driven consumer behaviour understanding fuels business growth.

Starbucks and Social Influence

Starbucks leverages social proof by encouraging customers to share their experiences on social media. This creates a community effect and taps into the social factors influencing consumer behaviour.

Consumer behaviour in marketing management is not static; it's a dynamic field that continually adapts as societies, technologies, and consumer expectations evolve. By embracing these complexities, marketers can craft strategies that truly resonate, fostering brand loyalty and sustainable business growth.

Frequently Asked Questions

What is consumer behaviour in marketing management?

Consumer behaviour refers to the study of how individuals or groups select, purchase, use, and dispose of products, services, ideas, or experiences to satisfy their needs and desires. In marketing management, understanding consumer behaviour helps businesses tailor their strategies to meet customer expectations effectively.

Why is understanding consumer behaviour important for marketing managers?

Understanding consumer behaviour enables marketing managers to identify customer needs and preferences, predict purchasing patterns, develop targeted marketing campaigns, improve product offerings, and enhance customer satisfaction and loyalty, thereby gaining a competitive advantage.

How do cultural factors influence consumer behaviour?

Cultural factors such as values, beliefs, customs, and social norms significantly influence consumer behaviour by shaping perceptions, attitudes, and buying decisions. Marketers need to consider cultural differences to create relevant and appealing marketing strategies for diverse consumer segments.

What role does psychological factors play in consumer decision making?

Psychological factors like motivation, perception, learning, beliefs, and attitudes affect how consumers evaluate products and make purchasing decisions. Marketing managers use this knowledge to design messages and experiences that resonate emotionally and cognitively with target audiences.

How has digital transformation impacted consumer behaviour in marketing?

Digital transformation has changed consumer behaviour by increasing access to information, enabling online shopping, encouraging social media influence, and fostering demand for personalized experiences. Marketers must adapt by leveraging digital channels and data analytics to understand and engage consumers effectively.

What is the impact of social influences on consumer behaviour?

Social influences, including family, friends, reference groups, and social media communities, affect consumers' attitudes and buying decisions through recommendations, peer pressure, and shared experiences. Marketing strategies often incorporate social proof and influencer marketing to capitalize on these effects.

How can marketing managers use consumer behaviour models to improve marketing strategies?

Marketing managers use consumer behaviour models—such as the Buyer Decision

Process, Maslow's Hierarchy of Needs, and the Theory of Planned Behaviour—to analyze the stages and factors affecting purchase decisions. These models help in designing targeted interventions at each stage to effectively guide consumers towards a purchase.

Consumer Behaviour in Marketing Management: Understanding the Dynamics Behind Purchasing Decisions

consumer behaviour in marketing management represents a cornerstone concept for businesses aiming to craft effective marketing strategies and optimize customer engagement. It explores how individuals or groups select, purchase, use, and dispose of products and services, influenced by psychological, social, cultural, and economic factors. Grasping these complexities enables marketers to tailor their offerings, messaging, and positioning to resonate more deeply with target audiences, ultimately driving brand loyalty and profitability.

Understanding Consumer Behaviour in Marketing Management

At its core, consumer behaviour in marketing management involves analyzing the decision-making processes of buyers and the factors that influence their choices. This includes stimulus-response models where external marketing stimuli—such as advertising, product design, price, and promotions—interact with consumers' internal psychological states before culminating in a purchase.

Marketers rely on behavioural insights to segment markets, predict trends, and customize value propositions. For example, recognizing that a consumer's cultural background significantly impacts preferences can lead companies to adapt product features or communication styles for different regions or demographics. Modern marketing management integrates consumer behaviour research to anticipate needs, reduce purchase friction, and enhance customer experience.

Psychological Influences on Consumer Decisions

One of the most studied facets of consumer behaviour in marketing management is the psychological underpinnings driving purchase decisions. Key psychological factors include motivation, perception, learning, beliefs, and attitudes.

- **Motivation:** Rooted in Maslow's hierarchy of needs, motivation explains

why consumers prioritize certain products. For instance, safety concerns can boost demand for home security gadgets.

- **Perception:** How a consumer interprets marketing messages and product cues directly affects their buying choices. Perception can be altered by branding, packaging, and even pricing strategies.
- **Learning:** Past experiences shape future behaviour, where positive interactions with a brand encourage repeat purchases.
- **Beliefs and Attitudes:** These form the mental framework through which consumers evaluate product attributes and brand promises.

In marketing management, understanding these psychological drivers allows for crafting more compelling campaigns that resonate at a subconscious level, often resulting in higher conversion rates.

Social and Cultural Factors Shaping Consumer Behaviour

Beyond individual psychology, consumer behaviour in marketing management is profoundly influenced by social contexts. Family, friends, social networks, and cultural norms play pivotal roles in shaping preferences and consumption patterns.

- **Family Influence:** Families often dictate purchasing habits, especially for products related to daily living, such as groceries or household appliances.
- **Reference Groups:** Peer groups and opinion leaders can sway consumer choices, particularly in lifestyle-related categories like fashion or technology.
- **Cultural Factors:** Traditions, values, and customs embedded in culture influence product acceptance. For example, food marketers must consider cultural dietary restrictions when entering new markets.

Marketing managers must therefore adopt a culturally sensitive approach, employing localized strategies rather than one-size-fits-all solutions, to effectively engage diverse consumer bases.

Applying Consumer Behaviour Insights in Marketing Management

Integrating consumer behaviour analysis into marketing management enhances decision-making across all stages of the marketing mix—product development, pricing, promotion, and distribution.

Product Strategy and Consumer Needs

By identifying specific consumer needs and preferences, companies can develop products that deliver superior value and satisfy unmet demands. Consumer behaviour studies reveal trends such as increasing demand for sustainable and ethically produced goods, compelling brands to innovate accordingly.

Pricing Decisions Influenced by Consumer Perception

Consumer behaviour heavily influences how pricing is perceived. Psychological pricing tactics—like charm pricing (e.g., \$9.99 instead of \$10)—exploit consumer perception biases to make prices appear more attractive. Moreover, understanding consumers' price sensitivity informs tiered pricing models and discount strategies.

Promotional Tactics Tailored to Consumer Insights

Advertising messages crafted with consumer motivations and attitudes in mind tend to perform better. For example, emphasizing health benefits in food advertising appeals to wellness-conscious consumers. Additionally, social media marketing leverages social proof and influencer endorsements, capitalizing on social factors affecting consumer behaviour.

Distribution Channels Reflecting Consumer Preferences

Consumer buying habits dictate preferred shopping channels, whether online, in-store, or hybrid models. Marketing management must adapt distribution strategies to match these preferences, ensuring convenience and accessibility.

Challenges and Opportunities in Understanding Consumer Behaviour

While consumer behaviour in marketing management offers valuable insights, it also presents challenges. Consumers are increasingly empowered by digital technologies and access to information, resulting in more complex and less predictable behaviours. The rise of omnichannel shopping, personalized marketing, and evolving privacy concerns require marketers to continuously refine their understanding.

Conversely, advances in data analytics and artificial intelligence provide unprecedented opportunities to capture real-time consumer data, identify patterns, and deliver hyper-personalized experiences. Effective use of these tools allows marketing management to stay attuned to shifting consumer dynamics and maintain competitive advantage.

Ethical Considerations in Consumer Behaviour Research

As marketers delve deeper into consumer psychology and personal data, ethical considerations become paramount. Respecting privacy, avoiding manipulation, and promoting transparency are essential to sustaining consumer trust and long-term brand integrity.

- Ensuring informed consent for data collection
- Avoiding exploitative marketing tactics
- Maintaining honesty in advertising claims

Marketing management that balances these ethical imperatives with data-driven insights fosters sustainable consumer relationships.

Consumer behaviour in marketing management remains a dynamic field, continuously evolving alongside societal changes and technological advancements. Organizations that invest in understanding the nuanced factors influencing consumer decisions are better positioned to create meaningful connections and drive business growth.

Consumer Behaviour In Marketing Management

consumer behaviour in marketing management: Consumer Behavior Stefan Hoffmann, Payam Akbar, 2023-01-03 Detailed textbook with a focus on consumer behavior research This textbook addresses the central question of whether and in what way advertising has a lasting influence on the purchase decision process. For this purpose, it takes a look at the focus of consumer behavior and market research. In the course of this, the work conveys the basics of consumer behaviour in a comprehensible and clear language. Why is the shopping cart fuller than planned? Why does everyone want the latest smartphone so badly? The authors Stefan Hoffmann and Payam Akbar address the following topics in their book Consumer Behaviour: They begin with the understanding of the term and briefly outline the theoretical as well as methodological approach to consumer behaviour. They then discuss influences on consumer behaviour, which take place first and foremost within us: Motivation, emotion and cognition as well as attitude and decision. They then show that behaviour differs systematically between different consumer groups. For this

purpose, they consider influences from the social, physical and media environment. At the end of the consumer behavior book, they illustrate how buying behavior is embedded in general societal developments and thus constantly changes over time. This second edition of the book has been revised and updated by the authors. Clear textbook for exam preparation with many practical aids The Consumer Behavior textbook is intended for students in the following disciplines: Business Administration Psychology Communications Related disciplines It follows a consistent didactic concept: as a reader, you observe the fictional characters Lea and Ben in numerous consumption situations. In this way, you get to know essential theories and models in a lively way and close to everyday life. The following elements also help you to quickly grasp and effectively learn the contents of the textbook Consumer Behaviour: Case studies Descriptions of relevant studies QR codes to video content (e.g. videos and websites) This makes this book ideal for reviewing lectures and preparing for exams. At the end of each chapter you will find questions for self-monitoring and recommended reading.

consumer behaviour in marketing management: Consumer Behaviour M. Khan, 2007 The Book Presents A Comprehensive Coverage Of The Subject With Examples From The Indian Scenario. The Book Stresses On Consumer Decision-Making And Clearly Explains The Five Stages Of Problem Recognition, Information Search, Evaluation Of Alternatives, Purchase And Post-Purchase Behaviour. It Also Explains Outlet Selection And Purchase. The External Environment And Its Influence On Decision-Making Is Highlighted. These Are Demographical, Political, Cultural And Technological Factors. Along With These, The Internal Determinants Of Beliefs, Attitudes, Personality, Memory And Values Have Also Been Discussed In This Book. Contemporary Developments Like E-Consumer Behaviour And Consumer Delight In Place Of Consumer Satisfaction Have Also Been Discussed. Relevant Case Studies And Review Exercises Are Additional Highlights Of This Book. With Its Clear Style And Systematic Approach, This Book Would Be Extremely Useful For Students Of Marketing Management. Management Consultants And Professionals Would Also Find This Book To Be A Valuable Reference Source. In The Second Edition Of The Book Some Useful Information Has Been Added. This Contains A Small Case. Other Examples Of Marketing Strategies And Marketing Implications Have Been Added. One Extra Chapter On Changing Consumer Behaviour Has Been Added. The Book Will Be Found Of Great Help To All Who Are Interested In Getting A Knowledge Of Consumer Behaviour.

consumer behaviour in marketing management: Contemporary Issues in Marketing and Consumer Behaviour Elizabeth Parsons, Pauline Maclaran, Andreas Chatzidakis, Rachel Ashman, 2023-07-31 This third edition of Contemporary Issues in Marketing and Consumer Behaviour has been revised and updated to reflect the fast-changing world we live in. The new state of the art chapter on digital marketing digs deeply into two new frontiers of marketing which have significant impact on contemporary social life: influencer marketing, and online gaming. Other new topics help us to understand how marketing can perpetuate local and global inequality through creating and sustaining hierarchies of knowledge and influencing norms of race, disability, gender and sexual orientation. Topics new to this edition include: Digital Markets and Marketing Hierarchies of Knowledge in Marketing Marketing Inequalities: Feminisms and intersectionalities The Ethics and Politics of Consumption New case studies include: Emerging Economy Brands The Fairtrade Brand Disappearing Influencers Decolonising the Media Written by four experts in the field, this popular text successfully links marketing theory with practice, locating marketing ideas and applications within wider global, social and economic contexts. It provides a complete and thought-provoking overview for postgraduate, MBA and advanced undergraduate modules in marketing and consumer behaviour and a useful resource for dissertation study at both undergraduate and postgraduate levels. Online resources include chapter-by-chapter PowerPoint slides.

consumer behaviour in marketing management: Consumer Behaviour Robert East, Jaywant Singh, Malcolm Wright, Marc Vanhuele, 2021-09-29 'A serious, thoughtful consumer behaviour text that focuses on substance rather than what's fashionable in academic circles.' Professor Byron Sharp, Ehrenberg-Bass Institute, University of South Australia 'A thought-provoking

text that challenges readers to consider consumer behaviour in new and refreshing ways and reflect on routine behaviours that occupy so much of daily life – buying brands, patronising stores, watching adverts, making recommendations.’ Professor Mark Uncles, Deputy Dean, Australian School of Business, University of New South Wales Written by respected marketing academics, this popular textbook extends beyond a basic psychological approach to Consumer Behaviour by providing a more empirical understanding of the subject, helping students grasp marketing applications at both individual and market levels. The fourth edition maintains a strong focus on research, particularly quantitative methods, helping higher-level students develop analytical and evidence-based thinking for success in scholarly and industry-based marketing research. The textbook contains new examples, exercises and research findings, along with recent advancements in the digital environment. Suitable for upper undergraduate and postgraduate students taking courses in consumer behaviour, as well as doctoral candidates with a focus on consumer behaviour. Robert East is Emeritus Professor at Kingston University London, UK. Jaywant Singh is Professor of Marketing at Southampton Business School, University of Southampton, UK. Malcolm Wright is Professor of Marketing at Massey University, New Zealand. Marc Vanhuele is Professor of Marketing at HEC Paris, France.

consumer behaviour in marketing management: Consumer Behaviour Analysis Gordon R. Foxall, 2002

consumer behaviour in marketing management: Consumer Behaviour Cathy M. Neal, Pascale Quester, 2007 Whether or not we are marketers, we are, definitely, all consumers. We undertake simple or complex purchases each and every day of our lives. Exposure to consumer behaviour principles will help you understand how consumer decisions are made, and what factors influence both the decision-making process and its outcomes. *Consumer Behaviour: Implications for Marketing Strategy* guides students' exploration into the field of consumer behaviour. The text covers complex types of decision-making processes, before focusing on the two main factors that affect it, namely internal and external influences. Enhanced within each chapter is coverage of consumer purchasing decisions for goods and services, including many local and global examples from the region.

consumer behaviour in marketing management: Consumer Behaviour Robert East, Malcolm Wright, Marc Vanhuele, 2013-02-06 Written by respected marketing academics across the globe, this text aims to develop Masters level students' analytical and evidence-based thinking in marketing through the use of up-to-date research, international examples and cross-cultural comparisons.

consumer behaviour in marketing management: Consumer Behavior and Marketing Matthew Reyes, 2020-03-04 This Edited Volume *Consumer Behavior and Marketing* is a collection of reviewed and relevant research chapters, offering a comprehensive overview of recent developments in the field of psychology. The book comprises single chapters authored by various researchers and edited by an expert active in the research area. All chapters are complete in itself but united under a common research study topic. This publication aims at providing a thorough overview of the latest research efforts by international authors and open new possible research paths for further novel developments.

consumer behaviour in marketing management: Consumer Behaviour Cathy Neal, Neal, Pascale Genevieve Quester, Del I. Hawkins, 2006 *Consumer Behaviour*, the market leading text by Cathy Neal and Pascale Quester, is now even more current, more lively and more relevant. This new Enhanced edition now offers a NEW 32 page section up front that hosts contemporary hot topics in areas such as: culture and consumption, children and consumption, subcultures and consumption, phishing and more. Specifically created to meet the needs of contemporary users interested in presenting their students with the latest developments in the field, this enhanced edition includes a new capstone case and several new cases from New Zealand. The enhanced material builds on the existing 4th edition that has come to be recognised for its fresh and contemporary design, features that engage students and enhance their comprehension of the key concepts. The strategic and

decision-making focus of this text is retained.

consumer behaviour in marketing management: Handbook of Research on Managing and Influencing Consumer Behavior Kaufmann, Hans-Ruediger, 2014-10-31 In recent years, all types of businesses have increasingly focused on the importance of the relationship with the customer. Customer knowledge management has become a well-known term used in the business and academic worlds for understanding how to control consumer behavior. The Handbook of Research on Managing and Influencing Consumer Behavior discusses the importance of understanding and implementing customer knowledge management and customer relationship management into everyday business workflows. This comprehensive reference work highlights the changes that the Internet and social media have brought to consumer behavior, and is of great use to marketers, businesses, academics, students, researchers, and professionals.

consumer behaviour in marketing management: Consumer Behavior in Marketing Strategy John A. Howard, 1989

consumer behaviour in marketing management: Consumer Behaviour and Advertising Management Matin A. Khan, 2006 About the Book: This book, Consumer Behaviour and Advertising Management, is addressed primarily to the students pursuing courses in management in universities and students in India. It explains the fundamentals of the subjects and is illustrated with practical examples in Indian environment . It covers almost all the topics required to be studied in the field of consumer behaviour and advertising management. It covers the syllabi of IET. The text on consumer behaviour has been amply made clear with case studies. The chapters on advertising, besides dealing with promotional tools, also exp.

consumer behaviour in marketing management: Consumer Behavior Del I. Hawkins, 2007 Consumer Behavior, 10/e, by Hawkins, Mothersbaugh, and Best offers balanced coverage of consumer behavior including the psychological, social, and managerial implications. The new edition features current and exciting examples that are tied into global and technology consumer behavior issues and trends, a solid foundation in marketing strategy, integrated coverage of ethical/social issues and outlines the consumer decision process. This text is known for its ability to link topics back to marketing decision-making and strategic planning which gives students the foundation to understanding consumer behavior which will make them better consumers and better marketers.--Publisher description.

consumer behaviour in marketing management: Marketing Management and Consumer Behavior Mr. Rohit Manglik, 2024-07-29 Focuses on strategic marketing and consumer analysis in agricultural sectors.

consumer behaviour in marketing management: Consumer Behavior in Action Geoffrey Paul Lantos, 2015-01-28 Consumer Behavior in Action is a down-to-earth, highly engaging, and thorough introduction to consumer behavior. It goes further than other consumer behavior textbooks to generate student interest and activity through extensive use of in-class and written applications exercises. Each chapter presents several exercises, in self-contained units, each with its own applications. Learning objectives, background, and context are provided in an easy-to-digest format with liberal use of lists and bullet points. Also included in each chapter are a key concepts list, review questions, and a solid summary to help initiate further student research. The author's practical focus and clear, conversational writing style, combined with an active-learning approach, make this textbook the student-friendly choice for courses on consumer behavior.

consumer behaviour in marketing management: Consumer Behavior Gerald Zaltman, Melanie Wallendorf, 1979 Consumer behavior is discussed through: 1) simple statements of basic findings (propositions) in consumer and nonconsumer settings; 2) explicit discussion of the findings' implications for marketers; 3) emphasis on importance of sociology in consumer studies; 4) perspectives on organizations as consumers. An adequate understanding of consumer behavior is essential for the prosperity of any marketing enterprise. Consumer behavior involves activities oriented toward obtainment and experiences which are the consequences of using products and services. Consumer behavior is affected by sociological perspectives of demography, social

structure, roles and power and by psychological perspectives of learning, need, motivation, attitudes. Individual and organization adoption and resistance behavior effects consumer behavior.

consumer behaviour in marketing management: Hospitality Marketing Management

Robert D. Reid, David C. Bojanic, 2009-02-09 Completely revised and updated to include more information on Internet marketing, tourism marketing, marketing technology, and international business, Hospitality Marketing Management, Fifth Edition is a comprehensive, core marketing text. This popular textbook explores marketing and themes unique to hospitality and tourism, with a focus on the practical applications of marketing rather than marketing theory. It provides readers with the tools they need to successfully execute marketing campaigns for a hospitality business, no matter what their specialty.

consumer behaviour in marketing management: Consumer Behavior Del I. Hawkins, Roger

J. Best, Kenneth A. Coney, 1983

consumer behaviour in marketing management: Contemporary Marketing and

Consumer Behavior John F. Sherry, 1995-05-02 Scholarly and extensively footnoted, the book is meant to be used as a sourcebook for anthropological research. . . . The book's primary audience should be marketing and anthropology researchers, and graduate students, faculty, and researchers. --P. G. Kishel in Choice As a business person responsible for the development of advertising strategies and advertising campaigns, I was impressed with the contributors' willingness and desire to apply anthropological principles to real world problems. John Sherry Jr.'s comment sums it up nicely, 'Anthropology is a practical discipline, anchoring the blue sky thinking it encourages firmly to the local ground it inhabits.' We need to encourage blue sky thinking so we don't repeatedly get the same answers to our inquiries. Anthropologists can help us with these issues. . . This book gives me enormous hope that applied anthropology will help restore the tremendous value that can be gained through qualitative research techniques. Today in marketing and advertising, focus groups are grossly overused, misused, and underanalyzed. I was encouraged and excited about the authors' discussions of good ethnographies and focus groups that, for example, instead of simply asking respondents whether or not EMF causes cancer, a far more creative and insightful exercise was performed with consumers, and then was intensely analyzed by anthropologists. All too often today, qualitative research is carelessly and quickly administered and the analysis consists of a 30-minute debriefing at the end of the last focus group. . . In the last few years, the need for cross-cultural consumer understanding has grown rapidly. This phenomenon makes it imperative that not only must we fully understand the meanings of brands and products to our domestic consumers, but we must know which meanings are 'transportable' to consumers in other cultures. John Sherry Jr.'s book suggests that anthropologists could and should have a major role in cross-cultural consumer understanding. --Patricia A. Cafferata, President and Chief Executive Officer, Young & Rubicam Chicago John Sherry Jr. and his contributors bring 'marketplace anthropology' out of the shadows and into the dazzling piazza of contemporary social thought. Wide-ranging, lively, and often witty, the sourcebook raises many intriguing questions about the trajectory of anthropology and social science in general for the 21st century. Though readers might not always agree with the approaches used, these chapters are pointed reminders of vast fields of anthropological neglect on subjects of huge importance for today's world, yet inspirations for the work reach back to the foundations of modern anthropology, from Malinowski to W. Lloyd Warner. . . This book makes a convincing case for the role of marketplace anthropology in basic research on humankind. While many anthropologists might approach this collection with some apprehensiveness, the editor does not shrink from the ethical issues of business anthropology. Applied anthropologists in many fields can benefit from the insights and ideas presented here. This book goes a long way toward replacing the pop-anthropology so rampant in corporate circles these days with substantive anthropological materials and sets of ideas on advertising, organizational behavior, buying and selling, profit-making, consumer relations, and much more. --J. Anthony Paredes, Florida State University Anyone concerned with understanding the consumer will find John F. Sherry Jr.'s new book invaluable. In the past decade, the most important contributions to the meaning of products, brands,

and advertising in consumers' lives have come from anthropology. Sherry and the contributors to this volume have been in the forefront of that movement. The chapters in this volume, whether on shampoo, electric utilities, or life histories of brand behavior, capture the excitement and illumination of looking at marketing and advertising through the lens of anthropology. --Myra Stark, Saatchi & Saatchi Advertising This book is long overdue; anthropologists as consumer researchers have been a powerful underground force for the past 15 years of innovative marketing. Major companies, as well as government and private institutions, have looked to anthropologists to help when other research has failed. John Sherry Jr. has collected outstanding anthropological practitioners in this volume, and they have written cutting-edge chapters on product symbolism, consumer culture, advertising efficacy, and international marketing. The power of this collection lies in the fresh insights to each of these themes and the ability to reframe old problems to perceive what it means to live the life of a consumer as we approach the next century. --Steve Barnett, Managing Director, Global Business Network Containing original articles and empirical substance, Contemporary Marketing and Consumer Behavior responds to a growing demand for scholarship more tuned to the empirical and practical realities of consumer culture. Written by leading anthropologists who specialize in marketing and consumer research, it is intended as a sourcebook for readers interested in consumption and its managerial consequences. The topics and their treatments run a gamut of concerns including elements of the marketing mix (such as goods and services), advertising and promotion, relationship management, managerial intervention and development, class-and-gender-linked consumer behaviors, and the production of consumption. Anthropological perspectives and methods employed by the authors range from materialistic to semiotic and both qualitative and quantitative methods are employed. Contributors range across time, space, and topics in pursuit of understanding. The result is a multifaceted perspective of marketing and consumer behavior. Also, the remarks of eminent senior Fellows of the Association for Consumer Research, who have drawn upon anthropology to make their own seminal contributions to a number of disciplines, punctuate this exceptional volume. A remarkable and extraordinary text, Contemporary Marketing and Consumer Behavior is ideal for scholars, students and professionals in marketing, cultural studies, gender studies, psychology, sociology, anthropology, and communication.
