give my regards to broadway: *The American Song Book* Philip Furia, Laurie Patterson, 2016 *The American Song Book, Volume I: The Tin Pan Alley Era* is the first in a projected five-volume series of books that will reprint original sheet music, including covers, of songs that constitute the enduring standards of Irving Berlin, Jerome Kern, the Gershwins, and other lyricists and composers of what has been called the Golden Age of American popular music. These songs have done what popular songs are not supposed to do—stayed popular. They have been reinterpreted year after year, generation after generation, by jazz artists such as Charlie Parker and Art Tatum, Ella Fitzgerald and Louis Armstrong. In the 1950s, Frank Sinatra began recording albums of these standards and was soon followed by such singers as Tony Bennett, Doris Day, Willie Nelson, and Linda Ronstadt. In more recent years, these songs have been reinterpreted by Rod Stewart, Harry Connick, Jr., Carly Simon, Lady Gaga, K.D. Laing, Paul McCartney, and, most recently, Bob Dylan. As such, these songs constitute the closest thing America has to a repertory of enduring classical music. In addition to reprinting the sheet music for these classic songs, authors Philip Furia and Laurie Patterson place these songs in historical context with essays about the sheet-music publishing industry known as Tin Pan Alley, the emergence of American musical comedy on Broadway, and the talkie revolution that made possible the Hollywood musical. The authors also provide biographical sketches of songwriters, performers, and impresarios such as Florenz Ziegfeld. In addition, they analyze the lyrical and musical artistry of each song and relate anecdotes, sometimes amusing, sometimes poignant, about how the songs were created. *The American Songbook* is a book that can be read for enjoyment on its own or be propped on the piano to be played and sung.

give my regards to broadway: American History in Song Diane Holloway, 2001
Songwriters dramatically captured the details of how Americans lived, thought and changed in the first half of the twentieth century. This book examines 1033 songs about WWI and WWII wars, presidents, Women's Suffrage, Prohibition, the Great Depression, immigration, minority stereotypes, new modes of transportation, inventions, and the changing roles of men and women. America invited immigrants and went to war to ensure democracy but within its borders, lyrics display intolerant attitudes toward women, blacks, and ethnic groups. Songs covered labor strikes, communism, lynchings, women voting and working, love, sex, airships, radio, telephones, the lure of movies and new movie star role models, drugs, smoking, and the atom bomb. History books cannot match the humor, poignancy, poetry and thrill of lyrics in describing the essence of American life as we moved from a rural white male dominated society toward an urban democracy that finally included women and minorities.

give my regards to broadway: City Songs and American Life, 1900-1950 Michael L. Lasser, 2019
Nothing defines the songs of the great American songbook more richly and persuasively than their urban sensibility. During the first half of the twentieth century, songwriter such as Harold Arlen, Irving Berlin, Dorothy Fields, George and Ira Gershwin, and Thomas 'Fats' Waller flourished in New York City, the home of Tin Pan Alley, Broadway, and Harlem. Many of these remarkably deft and forceful creators were native New Yorkers. Others got to Gotham as fast as they could. Either way, it was as if, from their vantage point on the West Side of Manhattan, these artists were describing America--not its geography of politics, but its heart--to Americans and to the world at large. In *City songs and American life, 1900-1950*, renowned author and broadcaster Michael Lasser offers an evocative and probing account of the popular songs--including some written originally for the stage or screen--that America heard, and sang, and danced to during the turbulent first half of the twentieth century. Lasser demonstrates how the spirit of the teeming city pervaded these wildly diverse songs. Often that spirit took form overtly in songs that portrayed the glamor of Broadway of the energy and jazz age culture of Harlem. But a city-bred spirit--or even a specifically New York City way of feeling and talking--also infused many other widely known and loved songs, stretching from the early decades of the century to the twenties (the age of the flapper, bathtub gin, and women's right to vote), the Great Depression, and, finally, World War II. Throughout this remarkable book, Lasser emphasizes how the soul of city life, as echoes in the nation's songs, developed and changed in tandem with economic, social, and political currents in America as a whole--Dust jacket flap.
