Basic Chords Used in "Count Your Blessings"

Chord Progression for the Verse

The verse typically follows a simple progression that sounds like this:

C	G7	C							
When	upon	life's	billows	you	are	tempest-tossed,			
F	C	G7	C						
When	you	are	discouraged,	thinking	all	is	lost,		
C	G7	C							
Count	your	many	blessings,	name	them	one	by	one,	
F	C	G7	C						
And	it	will	surprise	you	what	the	Lord	hath	done.

This progression repeats throughout the song, making it easy to memorize while allowing you to focus on the song's emotional delivery.

Exploring the Lyrics: Meaning and Interpretation

The lyrics of "Count Your Blessings" are straightforward but packed with meaning. They encourage listeners to shift perspective from worries to gratitude, a practice that can be deeply therapeutic.

Verse Insights

The opening verse paints a picture of life's challenges—"tempest-tossed" and feeling "all is lost." This imagery connects with anyone who has faced difficulties. The advice to "count your many blessings" serves as a gentle reminder that even amid hardship, there are reasons for hope and thankfulness.

Chorus Reflection

The chorus reinforces this message with a catchy, memorable phrase:

Count your blessings, name them one by one,
Count your blessings, see what God hath done.

Singing this aloud can be a powerful exercise, helping individuals focus on positives and develop a grateful mindset. When playing along, emphasize these lines to bring out their uplifting essence.

Tips for Playing "Count Your Blessings" Smoothly

Playing "Count Your Blessings" isn't just about knowing the chords and lyrics; it's about conveying warmth and sincerity through your instrument and voice. Here are some tips to help you deliver a heartfelt performance:

Master the Transitions

Practice moving between C, G7, F, and Am chords slowly at first. Smooth transitions will keep the song flowing naturally, especially important during the reflective verses.

Choose an Appropriate Strumming Pattern

A gentle, steady strumming pattern works best for this hymn. Consider a simple down-down-up-up-down-up pattern to maintain a relaxed rhythm that complements the song's soothing message.

Use Dynamics to Convey Emotion

Don't hesitate to play softer during verses and build slightly louder during the chorus. Dynamics help express the song's emotional highs and lows, making your rendition more engaging.

Practice Singing and Playing Together

If you're accompanying yourself, practice singing the lyrics while playing the chords. This dual focus can be challenging but adds authenticity and connection to your performance.

Advanced Tips: Adding Variety to Your Playing

Once comfortable with the basics, you can add embellishments to keep the song fresh and interesting.

Incorporate Fingerpicking

Try fingerpicking the chords instead of strumming to add texture. A simple arpeggio pattern can highlight the melody while keeping a gentle rhythm.

Use Capo to Change Key

If the original key of C is too low or high for your singing range, use a capo to transpose the chords easily. For example, placing a capo on the 2nd fret and playing the same chord shapes will raise the pitch to D major.

Add Instrumental Breaks

Between verses or after the chorus, insert brief instrumental breaks using chord arpeggios or melodic lines. This can give your performance a more polished feel.
