2002-10-01 Neale Donald Walsch has changed the way the world thinks about God. His books have been translated into twenty-five languages, and his Conversations With God series, book 1, book 2, and book 3, have all been New York Times bestsellers-book 1 for over two years. And then, as Walsch recounted in Friendship with God, something else extraordinary began to happen. His relationship with God began to strengthen and deepen, just as our own relationships do, into a friendship. Now in Communion with God, his most richly intimate book yet, Walsch discovers how to elevate that friendship to a state of communion. In this blueprint for seekers, he reveals The Ten Illusions of Man-the misconceptions we hold about ourselves and our world and our God. He describes with striking clarity how we might heal the great divide that has arisen from these illusions. And as he explores the true meaning of bringing God into our everyday lives, of having the courage of our convictions. Walsch shows us that we can only break free from our illusions when we act always from a place of deep fellowship with all that is holy-a place of communion with God.

neale donald walsch conversations with god 3: *False Dawn* Lee Penn, 2004 The interfaith movement, which began with the 1893 World's Parliament of Religions in Chicago, has grown worldwide. Although this movement has been largely unknown to the public, it now provides a spiritual face for globalization, the economic and political forces leading us all from nationalism to 'One World'. The most ambitious organization in today's interfaith movement is the United Religions Initiative (URI), founded by William Swing, the Episcopal Bishop of California. Investigative reporter Lee Penn, a Catholic ex-Marxist, exhaustively documents the history and beliefs of the URI and its New Age and globalist allies, the vested interests that support these movements, and the direction they appear to be taking. The interfaith movement is no longer merely the province of a coterie of little-headed religious idealists with grandiose visions. The URI's proponents have ranged from billionaire George Soros to President George W. Bush, from the far-right Rev. Sun Myung Moon to the liberal Catholic theologian Hans Küng, and from the Dalai Lama to the leaders of government-approved Protestant churches in the People's Republic of China. The interfaith movement, including the URI, is being promoted by globalist and New Age reformers who favor erosion of national sovereignty, marginalization of traditional religions, establishment of 'global governance', and creation of a new, Earth-based 'global spirituality'—in effect, a one-world religion. Therefore, the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order: the 'new civilization' now proposed by Mikhail Gorbachev, the last leader of the Soviet Union. In *The Reign of Quantity and the Signs of the Times*, French metaphysician René Guénon spoke of the 'anti-tradition' (the forces of materialism and secular humanism) finally giving way to the 'counter-tradition' (the satanic inversion of true spirituality), leading to the regime of Antichrist. The 'anti-tradition' weakens and dissolves traditional spiritualities, after which the 'counter-tradition' sets up a counterfeit in their place. Since Guénon's time, as is well known, anti-traditional forces have greatly advanced worldwide. It is less well-known that counter-traditional movements have also made great strides, and now stand closer to the centers of global political and religious power than ever before. The 'counter-tradition' is making inroads on the political and cultural Right, as much as it is doing on the Left. *False Dawn* painstakingly documents these trends, and speculates on their future development. In so doing, the author takes investigative reporting to the threshold of prophecy, and gives us a stunningly plausible picture of the global religious landscape of the 21st century. This extraordinary project is the literary equivalent of turning over a flat rock. There is much to be seen and learned here—all of it unsettling, disquieting, occasionally downright scary. 'William Murchison, Radford Distinguished Professor, Baylor University When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods, something has gone horribly wrong. In *False Dawn*, Lee Penn has produced a comprehensive and critical history of the United Religions Initiative. This book sounds a clear warning: Anyone who makes theological truth subservient to utopianism denigrates all religions.' Douglas LeBlanc, Editor, GetReligion.org
