soldiers of fortune the story of the mamlukes by glubb john bagot: Land Between the Rivers Bartle Bull, 2024-09-10 The epic, five millennia history of the region between the Tigris and Euphrates Rivers that was the birthplace of civilization and remains today the essential crossroads between East and West At the start of the fourth millennium BC, at the edge of historical time, civilization first arrived with the advent of cities and the invention of writing that began to replace legend with history. This occurred on the floodplains of southern Iraq where the great rivers Tigris and Euphrates meet the Persian Gulf. By 3000 BC, a city called Uruk (from which "Iraq" is derived) had 80,000 residents. Indeed, as Bartle Bull reveals in his magisterial history, "if one divides the 5,000 years of human civilization into ten periods of five centuries each, during the first nine of these the world's leading city was in one of the three regions of current day Iraq"—or to use its Greek name, Mesopotamia. Inspired by extensive reporting from the region to spend a decade delving deep into its history, Bull chronicles the story of Iraq from the exploits of Gilgamesh (almost certainly an historical figure) to the fall of the Iraqi monarchy in 1958 that ushered in its familiar modern era. The land between the rivers has been the melting pot and battleground of countless outsiders, from the Akkadians of Hammurabi and the Greeks of Alexander to the Ottomans of Suleiman the Magnificent. Here, by the waters of Babylon, Judaism was born and the Sunni-Shia schism took its bloody shape. Central themes play out over the millennia: humanity's need for freedom versus the co-eternal urge of tyranny; the ever-present conflict and cross-fertilization of East and West with Iraq so often the hinge. We tend to view today's tensions in the Middle East through the prism of the last hundred years since the Treaty of Versailles imposed a controversial realignment of its borders. Bartle Bull's remarkable, sweeping achievement reminds us that the region defined by the land between the rivers has for five millennia played a uniquely central role on

the global stage.

Holocausts tend to occur 40 or 80 years after a country has lost a war. soldiers of fortune the story of the mamlukes by glubb john bagot: The Last Crusaders Barnaby Rogerson, 2011-03-29 The acclaimed Medieval historian examines how the crusades of the fifteenth and sixteenth centuries reshaped the Mediterranean and influenced the globe. In the late Middle Ages, the forces of Christianity engaged in a series of epic battles with the Ottoman Empire. Though these later crusades are often overshadowed by earlier conflicts, they hold profound historical significance. They were the bridge between the medieval and modern periods, between feudalism and colonialism. The Last Crusaders is about this period's last great conflict between East and West. From the great naval campaigns and the ferocious struggle to dominate the North African shore, the hostility spread along trade routes, consuming nations and cultures, destroying dynasties, and spawning the first colonial empires in South America and the Indian Ocean. "Rogerson's narrative colors the conflicts of the sixteenth century with the derring-do of kings, corsair, and crusaders; this book will keep readers up long past bedtime." —Foreword Magazine

soldiers of fortune the story of the mamlukes by glubb john bagot: The History of the Renaissance World Susan Wise Bauer, 2013-09-23 A lively and fascinating narrative history about the birth of the modern world. Beginning in the heady days just after the First Crusade, this volume—the third in the series that began with The History of the Ancient World and The History of the Medieval World—chronicles the contradictions of a world in transition. Popes continue to preach crusade, but the hope of a Christian empire comes to a bloody end at the walls of Constantinople. Aristotelian logic and Greek rationality blossom while the Inquisition gathers strength. As kings and emperors continue to insist on their divine rights, ordinary people all over the world seize power: the lingayats of India, the Jacquerie of France, the Red Turbans of China, and the peasants of England. New threats appear, as the Ottomans emerge from a tiny Turkish village and the Mongols ride out of the East to set the world on fire. New currencies are forged, new weapons invented, and world-changing catastrophes alter the landscape: the Little Ice Age and the Great Famine kill millions; the Black Death, millions more. In the chaos of these epoch-making events, our own world begins to take shape. Impressively researched and brilliantly told, The History of the Renaissance World offers not just the names, dates, and facts but the memorable characters who illuminate the years between 1100 and 1453—years that marked a sea change in mankind's perception of the world.

soldiers of fortune the story of the mamlukes by glubb john bagot: A Global History of War Gérard Chaliand, 2014-11-17 While many books examine specific wars, few study the history of war worldwide and from an evolutionary perspective. A Global History of War is one of the first works to focus not on the impact of war on civilizations, but rather on how civilizations impact the art and execution of war. World-renowned scholar Gérard Chaliand concentrates on the peoples and cultures who have determined how war is conducted and reveals the lasting historical consequences of combat, offering a unique picture of the major geopolitical and civilizational clashes that have rocked our common history and made us who we are today. Chaliand's questions provoke a new understanding of the development of armed conflict. How did the foremost non-European empires rise and fall? What critical role did the nomads of the Eurasian steppes and their descendants play? Chaliand illuminates the military cultures and martial traditions of the great Eurasian empires, including Turkey, China, Iran, and Mongolia. Based on fifteen years of research, this book provides a novel military and strategic perspective on the crises and conflicts that have shaped the current world order.

of Egypt Arthur Goldschmidt, Jr., 2023-07-25 Egypt is the world's oldest continuous country, with a recorded past of over 6,000 years. Often invaded, conquered, and occupied by foreign armies, Egypt has never lost its identity. The Egyptians of today, although they have changed their language once and their religion twice, descend mainly from the Egyptians who built the Giza Pyramids and the Temple of Karnak, who served Alexander the Great and his heirs, who submitted to Augustus Caesar and raised much of the grain that fed the Roman Empire, who started Christian monasticism and the veneration of the Virgin Mary, and who advanced and sustained Muslim learning in what is now the world's oldest functioning university. It was and is one of the most important countries in the world. Historical Dictionary of Egypt, Fifth Edition contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 600 cross-referenced entries on important personalities as well as aspects of the country's politics, economy, foreign relations, religion, and culture. This book is an excellent resource for students, researchers, and anyone wanting to know more about Egypt.

soldiers of fortune the story of the mamlukes by glubb john bagot: East Meets West in the Middle Ages and Early Modern Times Albrecht Classen, 2013-09-03 This new volume explores the surprisingly intense and complex relationships between East and West during the Middle Ages and the early modern world, combining a large number of critical studies representing such diverse fields as literary (German, French, Italian, English, Spanish, and Arabic) and other subdisciplines of history, religion, anthropology, and linguistics. The differences between Islam and Christianity erected strong barriers separating two global cultures, but, as this volume indicates, despite many attempts to 'Other' the opposing side, the premodern world experienced an astonishing degree of contacts, meetings, exchanges, and influences. Scientists, travelers, authors, medical researchers, chroniclers, diplomats, and merchants criss-crossed the East and the West, or studied the sources produced by the other culture for many different reasons. As much as the theoretical concept of 'Orientalism' has been useful in sensitizing us to the fundamental tensions and conflicts separating both worlds at least since the eighteenth century, the premodern world did not quite yet operate in such an ideological framework. Even though the Crusades had violently pitted Christians against Muslims, there were countless contacts and a palpable curiosity on both sides both before, during, and after those religious warfares.

soldiers of fortune the story of the mamlukes by glubb john bagot: Cult of Progress David Olusoga, 2018-03-29 Companion to the major new BBC documentary series CIVILISATIONS, presented by Mary Beard, David Olusoga and Simon Schama Oscar Wilde said 'Life imitates Art far more than Art imitates Life.' Was he right? In Civilisations, David Olusoga travels the world to piece together the shared histories that link nations. In Part One, First Contact, we discover what happened to art in the great Age of Discovery, when civilisations encountered each other for the first time. Although undoubtedly a period of conquest and destruction, it was also one of mutual curiosity, global trade and the exchange of ideas. In Part Two, The Cult of Progress, we see how the Industrial Revolution transformed the world, impacting every corner, and every civilisation, from the cotton mills of the Midlands through Napoleon's conquest of Egypt to the decimation of both Native American and Maori populations and the advent of photography in Paris in 1839. Incredible art - both looted and created - relays the key events and their outcomes throughout the world.

soldiers of fortune the story of the mamlukes by glubb john bagot: The Prophets of Doom Neema Parvini, 2023-07-27 Linear and progressive views of history have dominated the popular imagination for the past seventy years in a worldview wedded to the inexorable rise of globalisation and GDP-growth at any cost. However, the end of the Cold War failed to produce the end of history as hoped, a fact brought home to many by Russia's invasion of Ukraine in 2022. Material wealth and 'Progress' in the name of 'social justice' have not made people happier or

more united but quite the opposite. Anxiety, depression, fearfulness, sadness, loneliness and anger have all massively increased since 1970 with the male suicide rate at an all-time high. Western society seems to be divided against itself across every line conceivable: left versus right, women versus men, "non-whites" versus "whites", globalists versus populists, "the elites" versus "the people", people who think that men can be women and vice versa versus those who insist that they cannot, and so on. Seventy-three percent of Americans believe their country is on "the wrong track", with similar views reflected in Britain and across Europe. The Prophets of Doom explores eleven thinkers who not only dared to contradict the dominant linear and progressive view of history, but also predicted many of the political and social maladies through which we are living.
